

## **XLkrun Vrana with adidas**

This weekend the XLkrun running competition, organized with support by adidas, took place in Sofia. The venue of the event was Park Palace "Vrana" on Sunday, June 29<sup>th</sup>. The running was organized in two stages - the 5,05km short distance run and the 10,10km long distance run.

The idea behind the XLkrun initiative is to provide variety to the regular Saturday runs, and offer longer distances and various locations.

The participants had the opportunity to enjoy not only the sporting challenge, but the picturesque gardens surrounding the palace also. The first building of the palace, meant as a hunting lodge, was completed in 1904. The construction of the second building (the new palace) began in 1909 and finished in 1912. Since 2013 the park-museum Vrana is open for visitors every weekend from 10 to 16 o'clock.

As usual adidas had prepared numerous prizes for the participants in both short-distance and long-distance runs
