

- Slope style: conquer the elements in this season's sleek feminine silhouettes -

With head-to-toe looks built for the slopes, stand out in the **Fall / Winter 16 adidas by Stella McCartney Wintersports** range. Striking metallics, bold colour blocking and sleek silhouettes define this season's slope style, whilst carefully placed technologies offer cutting-edge performance when needed the most in the great outdoors.

Embrace winter sports in the boxy **Wintersports Puffa Jacket**, built for cold winter days and create contrast in an ultra-feminine finish by pairing with the **Wintersports Slim Pant**. Quilted woven material inserts and a high waist construction provide ultimate comfort and the perfect fit, whilst ClimaProof ensures breathable, waterproof and windproof protection from the elements. Stay warm and comfortable with every step in the **Winterboot**, built with waterproof and thinsulate properties, which help trap body heat while allowing moisture to escape. Adventurous winter wanderers discover this season's most chic winter sport in **adidas by Stella McCartney's** dedicated cross-country skiing look. The **Cross Country Ski Pullon** and **Cross Country Ski Pant** both engineered with ClimaStorm technology, provide breathable, wind and water-repellent protection from extreme weather, whilst additional ClimaLite material in the **Cross Country Ski Pant** keeps the wearer moving on comfortably across the snowy terrain.
