adidas Originals – EQT Milled Leather Pack

adidas Originals brings a luxury material treatment to four essential EQT models this season for the EQT Milled Leather Pack.

Starting with a blacked-out colour palette and classic material makeups, the release highlights each model's signature structural ankle strap with premium laser-cut milled leather construction that add a touch of high-end class to the street-level EQT designs. At the retro end of the spectrum, the classic designs of the EQT Support RF and EQT Support Ultra are lightly elevated with an understated premium touch, whilst the hyper-modern EQT Support ADV and EQT Support 93/17's sharp, aggressive silhouettes are complemented with an equally striking visual mode. Blacked out and truly distinct, it's a release that encapsulates the uncompromised edge of EQT.
