

Information

adidas Originals – Climacool W

As the warmer months approach, the iconic Climacool silhouette steps out in two new colorways for women, decking out the early 2000s training model in a pair of classic color palettes.

True to the technology that gives the shoe its name, each shoe features a full Climacool mesh construction across the upper, structured by the shoe's signature TPU toe cap and midfoot cage. A classic EVA midsole is countered with ADIPRENE®+ in the forefoot for propulsion and support, finished with the shoe's rippled outsole with flex groove design. Offered in white and black colorways, it's a release that sees an icon of aggressive, 21st century footwear design in two of its starkest forms.
