Research Method

- This research was completed online among a random sample of consumers aged 18+. A total of 2,008 interviews were completed.

- In addition to a general population sample, two sub-groups, Affluents and Consumers with children under 18, were targeted and balanced by the general population.
  - Affluents – defined as having a minimum annual household income of $100,000 (n=631)
  - Consumers with children under 18 (n=918)

- Interviewing was conducted by Echo Research between June 5 - 8, 2012.

- Overall the results have a margin of error of ± 2.2 (or ± 3.9 among Affluents and ± 3.2 for consumers with children in household) percentage points at the 95% level of confidence.
Consumers with Children Under 18 in Household

SPENDING ON CHILDREN THIS SUMMER
The Majority of Consumers with Children Under 18 Expect to Spend on their Kids’ Summer Activities

More than three in four (78%) consumers with children under 18 (or 27.6 million families with children) anticipate spending on their kids’ activities this summer.

On average, consumers with children under 18 expect to spend $601 per child for their kid’s activities.

Family spending on kids’ activities is at least a $16.6 billion dollar summer fun industry given a one child household.
