## **New Holland Launches New Grape Harvester Braud Compact Range for the Intermediate and Large Row spacing Vineyard Segments**

- *Proven systems packaged in a class-leading compact design*
- *Best-in-class fuel efficiency with ECOBlue™ HI-eSCR Tier 4B technology.*
- *Best-in-class comfort and safety with award-winning filtration system*
- *Maximum uptime with fast and easy maintenance*

PRESS RELEASE

The new compact range of Braud grape harvesters meets the need of small sized vineyards, for machines with the dimensions and manoeuvrability to work with ease in their fields. The Braud 7030M and 8030L pack the proven Braud systems in a compact machine that delivers the performance and quality that are the hallmark of New Holland's grape harvesters. The Braud 7030M is dedicated for vineyards with intermediate row spacing (above 1.3m row spacing), whereas the Braud 8030L is best suited to large row spacing (above 1.6m). The new compact range also features a new styling with a profiled shaped engine hood for excellent right hand visibility.

### **Proven systems packaged in a class-leading compact design**

The proven SDC shaking system features a new low grape shaking that picks even the lowest bunch of grapes and, with the high-capacity cleaning system, harvests the vineyard gently and efficiently. The integrated Intelligent Management System 2.0 and the IntelliView™ IV touch screen monitor provide the operator full access to all key harvester functions and automatically manages the Blue Cab™ 4 system. The compact frame of the machine provides outstanding manoeuvrability, saving time even when turning in tight headlands. The Braud 8030L, combines the compact frame, with an higher capacity: a 1.9m Noria collecting fruits and high capacity 600mm wide cleaning conveyor. The Braud 7030M can be specified with the award winning Opti-Grape™ system for grape sorting and separation of impurities. Productivity has never been so easy.

### **Best-in-class fuel efficiency with ECOBlue™ HI-eSCR Tier 4B technology**

The Braud 7030M and 8030L run 128 hp FPT Industrial common rail electronic engines featuring New Holland's ECOBlue HI-eSCR Tier 4B technology that deliver more power and torque with best-in-class fuel efficiency.

### **Best-in-class comfort and safety with award-winning filtration system**

The cab of the new compact models offers all the comfort features of the bigger Braud grape harvesters, with ergonomic layout, the armrest with integrated joystick, quiet operation. Most importantly, it complies with the stringent Code 4 European Machine Directive and can be specified with the unique new Blue Cab™ 4 system, which features the most advanced filtration system in the industry and has been awarded the SITEVI 2015 Gold Medal for Innovation.

### **Maximum uptime with fast and easy maintenance**

The fast and easy maintenance means the grape harvesters can spend a maximum time working. Washing the picking head is quicker than ever with the new washing feature and the design with fewer accumulation areas. The new Noria tension system and swing head lock system save time for maintenance and machine preparation. The engine has long service intervals at 600 hours.

PRESS RELEASE

*New Holland Agriculture's reputation is built on the success of our customers, cash crop producers, livestock farmers, contractors, vineyards, or grounds care professionals. They can count on the widest offering of innovative products and services: a full line of equipment, from tractors to harvesting, material handling equipment, complemented by tailored financial services from a specialist in agriculture. A highly professional global dealer network and New Holland's commitment to excellence guarantees the ultimate customer experience for every customer.
