

## CASE announces strong line-up for Scotplant 2016

Turin, 18 February 2016

CASE Construction Equipment has teamed up with its dealer Hodge Plant to offer an impressive line-up of machines for the Scotplant exhibition in Edinburgh on April 22<sup>nd</sup> and 23<sup>rd</sup>.

With the largest stand at the show visitors will have plenty to see and do. As well as new machines from the recently launched D series the first UK qualifying round of the CASE Rodeo Challenge event will be held there. The CASE team will be also be available to explain about the latest innovations in the CASE SiteWatch telematics, plus maintenance programs and finance options.

More than 24 different models designed for all sectors of the construction, quarrying and recycling industries, equipped with latest emissions-compliant engines and fuel-saving technology will be on show. The heavy range line-up will include the new D Series crawler excavators, a wheeled excavator, wheel loaders, and the largest CASE dozer. There will also be an extensive range of machines from the compact line, including midi excavators, backhoe loaders, mini excavators and skid steer loaders.

Operators are invited to come and take part in the first qualifying round of the annual CASE Rodeo Challenge – an event designed to demonstrate their skill and speed. To secure a place in this year's final, which will be hosted in Paris later in the year, operators will have to place balls into a netball net using a 695 backhoe loader, and against the clock!

### **CASE Heavy range - powerful, durable and efficient**

There will be three models from CASE's latest D Series crawler excavator range, including a CX130D, CX210D and CX370D. These new machines stand out for their productivity, their fast cycles and efficiency, and their Tier 4 Final (Stage IV) maintenance-free technology and no DPF required they offer low running costs combined with outstanding performance.

There will also be two machines from the C Series, a CX130C LR and CX145C SR. Using Tier 4 Interim engines, they offer efficiency and fuel saving benefits through the use of the CASE Intelligent Hydraulic System (CIHS), which incorporates five electronically managed energy saving systems.

CASE's renowned F Series will be on show and will include the Tier 4 Final 821F and 921F, plus a 1121F. There will also be a 621FXT and 721FX which are ideally suited to harsh environments such as the waste and recycling sectors. Fuel efficient and powerful, these machines have Tier 4 interim-compliant engines that achieve emissions requirements with the use of Selective Catalytic Reduction

PRESS RELEASE

technology (SCR), which eliminates the need for a Diesel Particulate Filter.

Completing the heavy range line-up will be a WX148 wheeled excavator and the 2050M dozer. With its exclusive three-pump hydraulic system, the WX148 delivers increased performance and control. The 2050M dozer is the largest model in a range which also has SCR technology to meet Tier 4 interim emissions legislation.

### **CASE Compact range – machines for all applications**

Extensive and versatile CASE's compact range has a machine to suit almost any application, especially within urban construction and confined spaces and road building.

This section of the stand's display will have a 695ST and 580ST backhoe loaders. There will also be a Tier 4 Final CX75C SR and CX80C MSR, excavators which offer industry-leading emissions performance plus a choice of three boom systems, four auxiliary hydraulic control systems, three track options and two dipper-stick lengths. There is also improved features for more comfort within a spacious cab.

The compact loader display will include a SR210 and SV185 skid steer loaders, plus a TR310 compact tracked loader. Completing this area will be a CX18B with variable track gauge, plus zero swing models CX26B, CX30B and CX50B mini crawler excavators.
