- *Boomer 40 CAB, Boomer 50 ROPS and TL 350 Front loader tractors will be on display*
- *Event visitors can take a look at the E18 mini-excavator from the construction equipment range*

PRESS RELEASE

Visitors looking for exceptional power, manoeuvrability and ease of operation in compact tractors and construction machinery should ensure they visit New Holland's stand at Saltex 2016 on the 2 - 3 November at the National Exhibition Centre in Birmingham. New Holland will showcase two of its compact Boomer tractors and a mini-excavator from its new compact construction equipment stable.

With power outputs ranging from 27 to 47 hp New Holland's Boomer range of compact tractors are the ultimate power tools for landscapers and ground care staff. The colour coded and clearly-marked controls makes Boomer tractors easy to operate, while the four-wheel drive provides the traction needed to negotiate different terrains and difficult weather conditions. All models are easy-to-maintain and cost effective with 300 hour service intervals and a two-year warranty.

On the company's stand at Saltex a Boomer 40 CAB will be fitted with a Vredo overseeder, supplied by Campey Turf Care, and a Boomer 50 ROPS fitted with a TL350 Front Loader, supplied by Lynx Engineering, demonstrating the flexibility of the compact tractor range.

New Holland will also remind visitors of its new line of compact construction equipment for the amenities and landscaping sectors with an E18B mini excavator.

The mini excavator is designed to meet the needs of landscapers and ground care professionals, tackling a multitude of tasks from transportation to the planting of trees. The eight-model range offers supreme digging performance with New Holland's Smart Hydraulic System (SHS) and their small size and manoeuvrability makes them ideal for working in tight spaces.

Visitors can find New Holland at stand H180 at Saltex.

ENDS
