

## **CASE TR340 Compact Track Loader Named to Top 50 New Products for 2016**

*The Equipment Today 2016 Contractors' Top 50 New Products list represents the construction industry's most favored new products.*

Racine, Wis., Sep. 8, 2016

[CASE Construction Equipment's TR340 compact track loader](#) was selected as one of the top 50 new products for *Equipment Today's* sixth annual Contractor's Top 50 New Products Awards.

The winners were determined based on reader inquiries about new products featured in the magazine over a 12-month period, along with page views and inquiries on ForConstructionPros.com.

The result is the 2016 Contractors' Top 50 New Products, a listing of the industry's most favored products, which represent the leading edge of innovation, quality, efficiency and environmental conservation in the construction equipment industry today.

"Contractors striving to complete projects on time and on budget recognize the Contractors' Top 50 New Products as important tools to boost productivity, increase efficiency and enhance profitability on their jobsites," asserted Becky Schultz, *Equipment Today* editor. "To compete in today's market, contractors need the types of features and capabilities these unique and innovative new products have to offer."

The radial-lift TR340 weighs 10,000 pounds with a rated operating capacity (ROC) of 3,400 pounds and a bucket breakout force of 8,700 pounds. The CTL offers an EZ-EH (electro-hydraulic) setup menu with nine adjustable speed and control sensitivity settings that can be adjusted as applications change; a dozer-style undercarriage for stability on steep slopes and difficult terrain; and one of the largest cabs in the industry at nearly 3-feet wide.

Additional information can be found in the September issue of *Equipment Today* and on the Equipment Channel of ForConstructionPros.com.
