

Utility Farmall® C Series

6 Models, 64-117 (PTO: 50-99) Engine Horsepower: The utility Farmall® C series is a deluxe line of tractors, combining power and performance with a superior operator environment.

Industry-Leading Features

The features you've been asking for are here. More performance. More comfort. More versatility. More value. From the front to the back, the Case IH utility Farmall C series tractors are engineered to make your job easier and more productive than ever before.

Versatility To Help You Accomplish Anything

Utility Farmall C Series tractors can do it all around the farm, ranch, livestock operation, orchard, vineyard or construction site - anywhere you need to mow, blow, plow, till, move or grade. Designed with the input and guidance of operators in the field, these machines are the culmination of the Case IH commitment to helping you be ready for any task.

Visibility, Comfort and Control Built for You

Built for Long Days

- Redesigned driver's seat for exceptional comfort and productivity
- Optional larger driver's seat offers full 15 degree pivot
- Controls have a speed display included on the instrument cluster
- Loader joystick location optimized for simple, comfortable operation
- All remote valves positioned for easy access
- The control cluster pivots along with the steering wheel (cab models only)

Increased Visibility

- An overhead hood window panel is now available as an option.
- Provides improved visibility during loader work, making it easy for the operator to stay highly productive
- Can easily be opened to help maintain a comfortable temperature

Loaders are Ready to Work for You

Case IH installs loaders at the factory for your convenience. Choose from a non-self-leveling or mechanical self-leveling 72- or 84-inch quick attach bucket. Skid steer-style quick attach makes

changing buckets and other attachments easy. Several other loader attachments, including buckets and pallet forks, are available for all types of chores.
