PLAY LIKE AN ——ICON

With over forty years of sportswear experience under its belt, FILA has made a name for itself as the creator of designs that are iconic in the worlds of fashion and sport alike. The Heritage collection offers a chance to re-experience a selection of silhouettes synonymous with timeless FILA looks – in a completely new way. Here, black stands in for navy in FILA’s traditional color palette, joining the classic shades of red and white in color blocked patterns and contemporary blurred stripes. Plus, two super flattering Heritage dresses with curve-defining cut lines bring fresh femininity to FILA’s legendary aesthetic. As for the piece everyone will be talking about? The reimagined FILA Heritage jacket steals the show. Complete with a high cropped waist-accentuating peplum. FILA Heritage. An elegant melding of the past with the present.
