

## FACT SHEET

**WHAT:** Fireworks by Grucci, in association with Las Vegas Events and the Las Vegas Convention and Visitors Authority, returns to Las Vegas to present America's Party 2016.

**THEME:** On Top of the World

**PARTICIPATING PROPERTIES:** The firing locations include (from the south, heading north): **MGM Grand, Aria, Planet Hollywood, Caesars Palace, Treasure Island (TI), The Venetian and Stratosphere.**

**THE SHOW:** As a culmination to a full year of planning, Fireworks by Grucci has coordinated an 8 minute and 18 second performance. More than 11,000 electrical circuits have been programmed to launch with lightning speed and precision, delivering an intricate, synchronized display sequence from the seven Las Vegas Strip locations. Each circuit can display several light and color effects, resulting in more than 80,000 pyrotechnic firings during the performance.

The performance opens with ten seconds of dramatic pyrotechnics rising up from the Stratosphere Tower, as the clock counts down to midnight. Fireworks by Grucci will choreograph the one-of-a-kind performance with an exhilarating music mix. After the heart-pounding countdown and, for some, the traditional kiss to *Auld Lang Syne*, the party will continue long after midnight to this year's theme – I'm on Top of the World.

Revelers can enjoy the spectacular array of pyrotechnic flashes, salutes and rapid-fire aerial shells from locations across Las Vegas. This year, the soundtrack was inspired by the seven participating venues, and a special song will be dedicated to each, including *Hollywood* by Michael Jackson, *Treasure* by Bruno Mars, and of course *I'm On Top Of The World* by Imagine Dragons. The Grucci finale will play tribute to Frank Sinatra's 100<sup>th</sup> birthday by playing *Luck Be a Lady* with stunning chrysanthemums and brilliant titanium flash salutes that rumble, rock and rattle the night sky.
