PwC recognised as a Vanguard Leader worldwide in Kennedy Information's new report on Forensics and Dispute Advisory Financial Consulting

PwC awarded Vanguard status by Kennedy in both categories covered by the report - in the Kennedy Vanguard of Forensic Investigation Consulting Providers - and in the Kennedy Vanguard of Dispute Analysis and Advisory Providers

PwC is one of only two firms to have attained Vanguard Leader status in both categories, confirming PwC's strong position as a worldwide leader in Forensics and Dispute Advisory

PwC announced today that Kennedy, the leading consulting research and advisory firm, has rated PwC as a market leader, with the broadest and deepest capabilities in the market in Forensics and Dispute Advisory Financial Consulting. PwC has been rated as a Vanguard Leader in the two Vanguard evaluations in the report - in Forensic Investigation and in Dispute Analysis and Advisory. PwC is one of only two firms to have been rated as a Leader in both Vanguards where Kennedy evaluates the depth and breadth of major consulting providers.

"This recognition by Kennedy confirms PwC's market leading capabilities in Forensics and Dispute Advisory. PwC has a long history of helping public and private bodies to resolve some of the most complex crisis situations, to establish the facts, quantify losses and support remediation efforts -", said Juan Pujadas, Global Advisory Chairman.

This new report from Kennedy confirms PwC's strong market position as a leading provider of Forensic and Dispute Advisory Services worldwide.

Says PwC's Andrew Gordon, Global Forensic Services Leader: "PwC takes great pride in being the first choice for many corporations, organisations and governments around the world when they are facing complex forensic investigations, or entering into difficult negotiations with third parties in a dispute resolution context. We are heavily invested in making sure we have the deepest and broadest capabilities worldwide, allowing us to respond rapidly where and when our expertise is needed, helping our clients establish the facts and find resolution to these challenging situations".

According to the report's author, Matt Lyons "PwC is one of a handful of Forensic Investigator providers capable of investigating financial crime or regulatory infractions in the world's largest corporations. There is no project that is too big for the practice.."
