GHØST Spider S

DESIGNED FOR STABILITY

Spider Returns with a Vengeance

"The Ghost Spider I'm using has given me a whole new level of confidence. The white color makes it so easy to aim and the shape makes it so stable. I've never had this much control or made so many putts."

JASON DAY
PGA TOUR PROFESSIONAL

- ▶ White head contrasts with turf to make aiming dramatically easier to square the clubface
- ▶ White finish eliminates glare and "hot spots"
- ▶ Black, easy-to-see "basketball court" alignment lines make it easy to aim
- ▶ PURE ROLL technology promotes forwardspin for smooth roll
- ▶ Surlyn face insert delivers soft sound and feel
- ▶ Two 4-gram movable weights contribute to the most stable of any TaylorMade putter

ATV WEDGE

The Most Versatile Wedge in Golf

“The average wedge is limited because different shots require different bounces, cambers and sole widths. The ATV sole offers a multitude of strategically designed sole geometries, allowing you to play a wide range of shots with one wedge.”

BRIAN BAZZEL
TAYLORMADE MANAGER
IRON, WEDGE AND PUTTER CREATION

- New ATV (All-Terrain Versatility) Sole lets you play all critical shots with one wedge: chip, pitch, flop, explosion from sand, out of the rough, off a tight lie
- Bounce angle changes depending on how the head and face are positioned
- New all-milled groove design and micro-texture across the face generates more spin within USGA rules
- New Lamkin wedge grip extends farther down the shaft for improved traction when choking down
- New Tour-Inspired shapes with a beautiful non-plated Tour Satin finish
