

ZURICH®

OUR FLOOD RESILIENCE PROGRAM

HELPING COMMUNITIES

understand and protect themselves from floods

TRANSFORM RISK INTO OPPORTUNITY

for individuals, businesses, communities and economies

FLOODING

Is one of the most devastating natural catastrophe risks facing the world today

ZURICH'S FLOOD RESILIENCE ALLIANCE

brings our experts together with humanitarian organizations

FIVE-YEAR PROGRAM

USD 35,000,000

investment by the Z Zurich Foundation

Work has begun in

MEXICO
and
INDONESIA

we will use these pilot projects as models in other countries

OUR PARTNERS

- International Federation of Red Cross and Red Crescent Societies
- Practical Action
- International Institute for Applied Systems Analysis
- Wharton University of Pennsylvania

CASE STORIES:

GERMANY

In Passau's old town, water reached the second floor of some buildings

AUSTRIA

In Melk, the historic center flooded because work on a mobile dam was not completed in time

INDONESIA

The Ciliwung river is a recurring risk which floods the communities on its banks

WE KNOW THAT 'AFTER A FLOOD' IS REALLY JUST 'BEFORE THE NEXT FLOOD.'
