General Insurance – Review

Operational review has identified key actions

5 WORK STREAMS

1 Financial base-lining and ambition setting

2 Technical excellence

3 Expense reduction

4 Strategy and portfolio focus

5 Organization and governance

KEY ASPECTS OF REVIEW

- Re-evaluating GI's current underlying earnings power, with detailed plans in place for each business unit
- Evaluate options to use reinsurance to reduce earnings volatility
- Portfolios with high underwriting loss subject to detailed investigation
- Actions agreed for key portfolios including reunderwriting, repricing and portfolio exits, with execution subject to monthly reviews
- Full transparency on planned cost evolution – for overall GI and individual BUs
- 2016 cost target developed on GI and regional level; identification of additional cost savings opportunities ongoing
- Re-evaluation of key strategic priorities for each country
- Further footprint actions identified
- Streamline GI governance and organization
- Headcount reductions initiated for Global Corporate and GI Corporate Centre, subject to formal consultation process

General Insurance – Status update

Plan to get back on track in 2016, reduce gap to peers in 2017+

15 UNDERPERFORMING PORTFOLIOS¹

COMMENTS

- Key strengths to build on
 - Well diversified portfolio
 - Excellent franchises, including GC
 - Strong technical foundations and talent base
 - Global distribution reach
- Clear plans for improvement in 2016
 - Reunderwriting and enhanced discipline within parts of Global Corporate
 - Address profitability challenges in some other portfolios
 - Expense efficiency
 - Reduced earnings volatility
- Plan to reduce gap to top-tier competitors post 2016 through enhanced technical performance and improved efficiency

¹ As of 9m-15.

Financial highlights

George Quinn, Chief Financial Officer

Group – Business operating profit

Disappointing GI results, other businesses on track

BOP BY SEGMENT (USDm)¹

■ General Insurance ■ Global Life ■ Farmers ■ OOB ■ NCB

BOP TO NIAS WALK (USDm)

■ Non-controlling interests

¹ 2014 restated for the transfer of certain General Insurance business to Non-Core Business (NCB) in 2015. 2013 was not restated.

² Realized capital gains/losses.

³ Includes impairments of goodwill, restructuring provisions and other restructuring charges.

⁴ Shareholder taxes (income tax expense attributable to shareholders).

⁵ Includes change in estimate of earn-out liabilities.

General Insurance – Topline

Rate environment consistent with previous quarters

GWP GROWTH IN LC¹ (%)

RATE CHANGE² (%)

¹ In local currency.

² GWP development due to premium rate change as a percentage of the renewed portfolio against the comparable prior year period.

³ Total includes GI Global Functions, Group Reinsurance and Eliminations.

General Insurance – Combined ratio

Poor results in Global Corporate

COMBINED RATIO SPLIT (%)¹

Tianjin loss
 AY CR (excl. catastrophes)³
 Catastrophes²
 PYD

COMBINED RATIO BY REGION (%)¹

Q3-15
 Q3-14

¹ 2014 restated for the transfer of certain General Insurance business to Non-Core Business (NCB) in 2015. 2013 was not restated.

² Catastrophes includes major and mid-sized catastrophes, including significant weather related events.

³ Accident year combined ratio (AY CR) excludes prior year reserve development (PYD).

General Insurance – Combined ratio walk

Results significantly impacted by non-recurring factors

FY-14 NORMALIZED¹ TO 9m-15 COMBINED RATIO

- Tianjin loss, adverse PYD and low nat cat losses viewed as non-recurring
- Current year loss ratio impacted by high frequency of mid-sized and large losses – around 1pt of this increase is viewed as recurring
- GI review actions under way to deliver improvement from 2015 underlying CR of ~99.5%
- No major reserve issues identified in results process or GI review, maintain expectation of 1-2% positive PYD

¹ Normalizations include adjustment to the planned catastrophe level, positive and negative one-offs; numbers rounded.

General Insurance – Global Corporate

Turnaround actions in US

COMBINED RATIO (%)

■ Tianjin loss ■ AY CR (excl. catastrophes)
■ Catastrophes¹ ■ PYD ● 9m-15 NEP (USDbn)

COMMENTS

- North America and the impact of Tianjin are main drivers of poor results
- Actions under way to fix US business:
 - Exiting underperforming portfolios
 - Further rate tiering
 - Optimize reinsurance coverage to reduce large loss volatility
 - Expense actions
- Global Corporate remains a priority business for the Group, with best-in-class customer proposition

¹ Catastrophes includes major and mid-sized catastrophes, including significant weather related events.

General Insurance – BOP components

Negative BOP in Q3 due to underwriting loss

Disclaimer and cautionary statement

Certain statements in this document are forward-looking statements, including, but not limited to, statements that are predictions of or indicate future events, trends, plans or objectives of Zurich Insurance Group Ltd or the Zurich Insurance Group (the 'Group'). Forward-looking statements include statements regarding the Group's targeted profit, return on equity targets, expenses, pricing conditions, dividend policy and underwriting and claims results, as well as statements regarding the Group's understanding of general economic, financial and insurance market conditions and expected developments. Undue reliance should not be placed on such statements because, by their nature, they are subject to known and unknown risks and uncertainties and can be affected by other factors that could cause actual results and plans and objectives of Zurich Insurance Group Ltd or the Group to differ materially from those expressed or implied in the forward looking statements (or from past results). Factors such as (i) general economic conditions and competitive factors, particularly in key markets; (ii) the risk of a global economic downturn, in the financial services industries in particular; (iii) performance of financial markets; (iv) levels of interest rates and currency exchange rates; (v) frequency, severity and development of insured claims events; (vi) mortality and morbidity experience; (vii) policy renewal and lapse rates; and (viii) changes in laws and regulations and in the policies of regulators may have a direct bearing on the results of operations of Zurich Insurance Group Ltd and its Group and on whether the targets will be achieved. Zurich Insurance Group Ltd undertakes no obligation to publicly update or revise any of these forward-looking statements, whether to reflect new information, future events or circumstances or otherwise.

All references to 'Farmers Exchanges' mean Farmers Insurance Exchange, Fire Insurance Exchange, Truck Insurance Exchange and their subsidiaries and affiliates. The three Exchanges are California domiciled interinsurance exchanges owned by their policyholders with governance oversight by their Boards of Governors. Farmers Group, Inc. and its subsidiaries are appointed as the attorneys-in-fact for the Farmers Exchanges and in that capacity provide certain non-claims administrative and management services to the Farmers Exchanges. Neither Farmers Group, Inc., nor its parent companies, Zurich Insurance Company Ltd and Zurich Insurance Group Ltd, have any ownership interest in the Farmers Exchanges. Financial information about the Farmers Exchanges is proprietary to the Farmers Exchanges, but is provided to support an understanding of the performance of Farmers Group, Inc. and Farmers Reinsurance Company.

It should be noted that past performance is not a guide to future performance and that interim results are not necessarily indicative of full year results.

Persons requiring advice should consult an independent adviser.

This communication does not constitute an offer or an invitation for the sale or purchase of securities in any jurisdiction.

² Catastrophes includes major and mid-sized catastrophes including significant weather related events.

³ Includes the amortization costs of upfront payments for distribution agreements.

GI – Loss ratio details

LR impacted by higher attritional losses and Tianjin

LOSS RATIO (%)¹

¹ 2014 restated for the transfer of certain General Insurance business to Non-Core Business (NCB) in 2015. 2013 was not restated.

² Catastrophes includes major and mid-sized catastrophes including significant weather related events.

GI – North America auto liability

Increases in claims frequency driving adverse results

NORTH AMERICA AUTO LIABILITY LOSS RATIO AND NEP HISTORY

North America Commercial (NAC)

Global Corporate in North America (GCiNA)

- Net Earned Premium (USDm)
- Accident Year (AY) Loss Ratio (%)¹
- Calendar Year (CY) Loss Ratio (%)

- AY LR estimates have increased over time as PYD has impacted CY results
- Reserves set on prudent basis, fully reflecting all recent claims trends
- Issue is frequency-driven, with increases stemming from:
 - Improving economy in the US with more people working and driving
 - Cheaper fuel prices
 - Strong commercial truck sales
- Rate (>4% YTD) and portfolio reshaping actions are underway:
 - Re-underwriting of problem portfolios
 - Exit of GCiNA transportation book
 - Potential for targeted reinsurance placements to limit volatility

¹ Initial Accident Year Loss Ratio estimated as of the respective period-end.

GI – Prior year development (PYD)

Recent quarters PYD heavily impacted by two books

GI PYD (%)

- From Q1-14 to Q3-15, NA Commercial Auto has accounted for USD 382m in adverse development, while a sub portfolio within construction liability accounted for USD 331m.
- After removing adverse experience from these two books, remaining prior year reserve movements are within the expected 1-2% range over the medium term.

GI Global Corporate – Large losses

Study on property large losses completed and actions underway

PROPERTY LARGE LOSSES¹

Large loss ratio (%)

Severity (USDm)³

Frequency (count)⁴

COMMENTS

- Significant large property loss experience in 2015, well above recent years and expectations, mainly driven by an increase in severity
- Study on property losses completed with the following actions under way:
 - Reduction of exposure to risks with high hazard grades
 - Explore reinsurance program to limit volatility
 - Adjust and implement risk engineering rules of engagement
 - Launched project to reduce contract leakage
 - Extension of review to other lines

¹ Property non-engineering only (excluding Energy). Net ultimate large losses (in excess of USD 2.5m threshold) by accident year.

² Size of reviewed GC property portfolio in net earned premium, as of 9m-15.

³ Average incurred losses, inflation adjusted.

⁴ Number of large losses, per USD 100m premium net of facultative and captive reinsurances.

⁵ 9m-15 severity and frequency numbers do not include IBNR (large loss ratio does include IBNR). Tianjin loss not included in 9m-15 numbers.

GI Global Corporate – KPIs

Clear set of actions identified to address performance issues

9m-15 KEY FINANCIALS¹

GWP Growth ²	Zurich rate change ³	Combined Ratio
1%	0%	113%

KEY DRIVERS

- Modest growth reflecting continued market pressure, and underwriting actions triggered to improve profitability
- Flat rate increase, with main pressure in property lines and across all lines in APAC
- CR impacted by the Tianjin loss, higher severity of large losses and Auto / General Liability in North America

¹ 2014 restated for the transfer of certain General Insurance business to Non-Core Business (NCB) in 2015.

² In local currency.

³ GWP development due to premium rate change as a percentage of the renewed portfolio against the comparable prior year period.

GI North America Commercial – KPIs

Continued growth, uptick in combined ratio

9m-15 KEY FINANCIALS

BOP Expense ratio Loss ratio

GWP Growth¹

6%

Zurich rate change²

1%

Combined Ratio

98%

KEY DRIVERS

- Modest growth with continued execution of strategic growth initiatives (incl. captives) and increase in retentions
- Market pressure on rates, especially in property lines and workers' comp
- Combined ratio increased mainly due to a higher attritional loss ratio and slightly higher commissions, unfavorable PYD is offset by lower catastrophes

¹ In local currency.

² GWP development due to premium rate change as a percentage of the renewed portfolio against the comparable prior year period.

GI EMEA – KPIs

Combined ratio impacted by large losses, mainly in UK

9m-15 KEY FINANCIALS¹

GWP Growth ²	Zurich rate change ³	Combined Ratio
0%	2%	97%

KEY DRIVERS

- 1% growth excluding Russia Retail⁴, expansion in Switzerland, Germany and Spain, offset by declines in UK and Italy
- Continued low single digit rate increases in most markets
- Higher combined ratio mainly due to increased large losses, mainly UK

¹ 2014 restated for the transfer of certain General Insurance business to Non-Core Business (NCB) in 2015.

² In local currency.

³ GWP development due to premium rate change as a percentage of the renewed portfolio against the comparable prior year period.

⁴ Zurich's Russia Retail business was sold in Q4-14.

GI International Markets – KPIs

Lower AY loss ratio offset by turnaround actions

9m-15 KEY FINANCIALS

BOP

Expense ratio Loss ratio

GWP Growth¹

15%

Zurich rate change²

5%

Combined Ratio

103%

KEY DRIVERS

- Growth mainly driven by the new extended warranty distribution agreement in Brazil
- Higher rate increases due to actions to improve profitability in Latin America
- Increase in expenses is driven by the turnaround actions and the amortization of the upfront payment for the new distribution agreement in Brazil; some improvement in the AY LR, but still more required

¹ In local currency.

² GWP development due to premium rate change as a percentage of the renewed portfolio against the comparable prior year period.

GI – Rate change monitor

Increased pricing pressure in most regions

Q3-15 ZURICH RATE CHANGE ASSESSMENT

Business	Assessment
Group	Moderate rate increases, below prior-year levels with market pressure, particularly in US property lines and across our Global Corporate markets, Australia and UK.
Global Corporate	Competitive market conditions, particularly in the US. Rates in Asia Pacific and in property lines of business were negative.
North America Commercial	Continued small positive rate increases, although market conditions are challenging in property and workers' compensation lines.
EMEA	Fairly stable rate increases, albeit slightly below our expectations and with different local market dynamics.
UK	Flat rates, lower than prior year, negative rates in property lines.
Germany	Rate increases in our main lines, overall broadly in line with expectations.
Switzerland	Renewal rates broadly flat, with pressure on motor rates.
Italy	Overall reductions, with pressure on motor rates due to high market profitability.
Spain	Solid rate increases, ahead of prior year, mainly in motor.
International Markets	Increases in APAC, but below prior year levels, particularly in Australia. Strong rate increases in Latin America are consistent with prior quarter.

GI – Natural catastrophe reinsurance

Program further benefitted from lower reinsurance prices

NATURAL CATASTROPHE REINSURANCE TREATIES¹ (USDm)

GLOBAL AGGREGATE CAT TREATY

¹ US Cat Treaty and Global Aggregate Cat Treaty renewed on January 1, 2015; Europe Cat Treaty and Global Cat Treaty renewed on April 1, 2015; and International Cat Treaty renewed on July 1, 2015.

² This USD 150m cover is the same combined global occurrence / aggregate treaty presiding over the global catastrophe treaty. This cover can be used only once, either for aggregated losses or for an individual event.

GL – New business by pillar

Q3 NBV benefitting from higher swap rates and mix

Q3-15 KEY FINANCIALS^{1,2}

NBM	PVNB	CLP single premium
23.9%	USD 12.5bn	USD 1.4bn

KEY DRIVERS

- CLP protection and pensions APE increased, particularly in Germany and Switzerland, with overall stable margin
- Bank APE negatively impacted by FX effects, most notably from the devaluation of the Brazilian Real
- Other retail APE down in North America and Europe mainly from Germany and Zurich International Life partially offset by Japan
- NBV increased from higher volumes and improved business mix towards lower guaranteed products (particularly in Europe), and higher swap rates in comparison to H1

¹ APE is reported before non-controlling interests. NBM and NBV are reported net of non-controlling interests.

² 2013 and 2014 NBV figures have been restated to reflect a change in the MCEV CRNHR methodology.

GL – Net inflows & Assets under management

Higher net inflows and asset growth offset by currency impacts

NET INFLOWS BY REGION (USDbn)^{1,2}

AUM DEVELOPMENT (USDbn)

¹ In 2013 net policyholders flows did not include inflows for certain short-duration contracts.

² 2013 and 2014 restated to reflect the change in regional structure from Europe/APME to EMEA/APAC.

Zurich Santander – Quarterly results

Continued growth offset in USD by adverse FX development
