Blancpain

Over 275 years of tradition in motion:

Founded in 1735 by Jehan-Jacques Blancpain, the watch brand bearing his name is the oldest in the world. Blancpain is currently engaged to the renewal of mechanical watchmaking and to passing on exceptional expertise from one generation to the next through constant investment in human resources, production facilities and research. This approach is its strength and the expression of our long-term vision, even though it goes against the tide of a certain tendency to seek immediate profit.

From the creation of components through to watch design, Blancpain is distinguished by its ability to develop exceptional movements. Over the past 8 years, the Manufacture has indeed developed no less than 29 new calibres.

Through its various models, Blancpain preserves its heritage of precision and elegance, while also displaying an innovative and occasionally provocative spirit. Its range encompasses the sportive Levolution line, the legendary Fifty Fathoms diver's watch, as well as the classic Villeret collection, the high complication from Le Brassus collection and the Women models.

Pirelli

Founded in 1872, Pirelli is the world's fifth largest tire manufacturer based on revenues. With a presence in over 160 countries, the company now has 22 tire manufacturing facilities on five continents and employs some 34,000 people.

Having been involved in motor racing since 1907, Pirelli is currently the single tire manufacturer for Formula 1^{TM} for the 2011-2013 championship seasons and for the World Superbike Championship. This is an important challenge in terms of technological innovation and is a key means of promoting the Pirelli brand.

In 2013, Pirelli underlines its status as the global tire manufacturer with the biggest commitment to motorsport. In total, the Italian firm supplies 138 different championships across the world, excluding Formula One, both on the road and on the track. One of the most important engagements is the Lamborghini Blancpain Super Trofeo, supplied exclusively by Pirelli, which highlights the strong technical collaboration that the two Italian icons have shared since 1963.
