

Press Release

LAMBORGHINI HURACÁN GT3 RACE CAR MAKES FIRST APPEARANCE IN NORTH AMERICA THIS WEEKEND AT LAGUNA SECA

MONTEREY, Calif. (May 1, 2015) - The most sophisticated machine in the Lamborghini motorsports program will make its first North American appearance this weekend, as the Lamborghini Huracán GT3 will be on display in the Lamborghini and Blancpain Village at Mazda Raceway Laguna Seca.

The car will be the centerpiece of the display of Lamborghini vehicles at the iconic track in Northern California, site of the first two rounds of the 2015 Lamborghini Blancpain Super Trofeo North America championship on May 1-3.

Lamborghini is expanding its motorsports program behind the new Huracán GT3, which competes in the 2015 Blancpain Endurance Series in Europe. The Huracán GT3 is the first GT3 car fully engineered, developed and assembled internally by Lamborghini, with assistance from its valued partners.

The Lamborghini Huracán GT3 is equipped with an alu-carbon chassis and a fully integrated, FIA-compliant roll cage. The subframe has been modified both at the front and rear to accommodate a high performance water radiator (front), and for a better positioning of the gearbox (rear), improving aerodynamics. The car features a 42/58 front/rear weight distribution.

Bodywork is comprised of composite materials and was developed, along with aerodynamics, in collaboration with Dallara Engineering. Efficiency has been improved with the rear adjustable wing, adjustable front diffuser and louvres. The new aerodynamics also allow improved cooling of the braking system.

The GT3 is equipped with new bodywork fast-fittings and equipped with a new, enhanced-performing engine and gearbox oil cooler. The new rear-wheel drive Huracán GT3 adopts the V10 direct injection engine mounted on the road car, managed by a Bosch Motorsport control unit that also manages traction control, gearbox and the TFT display on the dashboard. The engine is fixed on the chassis by rigid mountings and is coupled with a sequential six-speed gearbox, according to FIA regulations, and a three-disc racing clutch.

The braking system is comprised of 380 x 34 mm steel discs at the front (6 pot), and 355 x 32mm steel discs at the back (4 pot), according to FIA regulations, equipped with Bosch ABS. This system features 12 different settings that can be adjusted from the steering wheel, as can traction control. The tire sizes are 315/680 at the front and 325/705 at the back. The car is equipped with a pneumatic lifting system.

Lamborghini and its dealers entertain VIP guests at every Lamborghini Blancpain Super Trofeo North America in the Lamborghini and Blancpain Village, which features lavish hospitality and amenities.

Automobili Lamborghini S.p.A.

Founded in 1963, Automobili Lamborghini is headquartered in Sant'Agata Bolognese, in North-eastern Italy. The Lamborghini Huracán LP 610-4, which made its world debut at the Geneva Motor Show in 2014, is the successor to the iconic Gallardo and, with its innovative technology and exceptional performance, it redefines the driving experience of luxury super sports cars. The Coupé, Roadster and Superveloce versions of the Aventador LP 700-4 are the new benchmark in the world of luxury super sports cars with the V12 engine. With 130 dealerships throughout the world, Automobili Lamborghini, in half a century, has created a continuous series of dream cars, including the 350 GT, Miura, Espada, Countach, Diablo, Murciélago, and limited series including Reventón, Sesto Elemento and Aventador J. The Veneno Coupé, Egoista and Veneno Roadster were produced to celebrate the 50th birthday of the company in 2013.

Blancpain - Innovation is our Tradition

Founded in 1735 by Jehan-Jacques Blancpain in the Swiss Jura, Blancpain is the world's oldest watch brand. Loyal to its tradition of innovation, confirmed by countless horological complications invented over the years, this same spirit of inventiveness continues to drive the master-watchmakers of the Manufacture. Determined to move beyond the borders of its legacy, Blancpain is constantly regenerated as it pushes the frontiers of watchmaking in perpetually enhancing its timepieces.

Today, Blancpain pursues its enduring commitment to the renewal of mechanical horology, steadily passing on exceptional expertise from one generation to the next by constant investments in human resources, production technologies and research. This approach is the source of its strength and expresses a long-term vision deliberately running counter to any tendency to seek immediate profit.

From creating components to designing watches, Blancpain is distinguished by its capacity to develop exceptional timepieces and over the past ten years, the Manufacture has introduced no less than 35 new calibres.

This philosophy is conveyed through each of the brand's creations and all its collections: from the classic Villeret to the legendary Fifty Fathoms diver's watch, as well as Grandes Complications from the Le Brassus collection and the sporty L-evolution line - while naturally never forgetting its Women models.
