Supershell Artist Profile – Zaha Hadid**

**BIO:**

Zaha Hadid is an Iraqi-British architect. Her projects have been hailed as architecture that transforms our ideas of the future with new spatial concepts and dynamic, visionary forms.

*“I would venture to say that Zaha Hadid is one of the most talented architects of our time and of history in my opinion. I think that Zaha’s designs are just like her buildings, they augment reality forever. With the Supershell she created, using the iconic Shelltoe of the shoe, I feel like she used dimensions of what already exists, and cast shadows that weren’t necessarily there.”*
