adidas Originals – EQT Support Ultra / Muted Premium Pack

adidas Originals presents a new release of the EQT Support Ultra silhouette this month, complementing the shoe's striking blend of 90s design and modern tech with a muted contemporary colour palette.

Faithful to the original material makeup of the EQT Support, the release features a mesh construction with premium leather and suede overlays, whilst integral details like the shoe's wraparound tongue, webbed 3-stripes lacing system and TPU support strap are all restored in full. The shoe's Clay Brown and Trace Green colourways feature tonal variations across the upper, countered with a white BOOST midsole and Continental outsole for all-weather grip. True to the forward-facing philosophy of the Equipment series, it's an understated release that doesn't sacrifice the razor sharp EQT aesthetic.
