## EQT Support ADV / EQT Support Ultra

adidas Originals brings a classic material makeup to two contemporary EQT models for Fall/Winter 17 in a release that blends modern design with pure 90s construction.

Comprising the progressive EQT Support ADV and EQT Support Ultra silhouettes, the latest EQT release reimagines the contemporary runners in the OG materials of the EQT range; the EQT Support ADV receives a knitted mesh upper with suede overlay panels and a welded nubuck toebox, structured with molded TPU support panels, while the EQT Support Ultra assumes a classic mesh/suede treatment with TPU support panel and heel cage. Each model is then rendered in a clean white/bold, orange/clear grey colorway completing the nostalgic aesthetic of the release and bringing the next generation of EQT back to its roots.
