EQT Support ADV / Berlin Exclusive

adidas Originals presents a city-exclusive edition of the EQT Support ADV silhouette this month, bringing the Equipment series to Berlin with a release inspired by the architecture of the German capital city.

Drawing from the oxidized copper rooftops and sculptures disruptively scattered across the Berlin when the city is viewed from above, the latest release of the EQT Support ADV features a stretch mesh textile construction in black, complemented by a premium black leather heel-cage with gold lasered branding details. The shoe is then offset by a brushed leather panel around the heel, rendered in a washed-out teal palette reminiscent of weather-worn copper metal.

Finishing touches include a contrast white sockliner, webbing tape 3-stripes mark, premium laces with reflective yarn and metallic lace tips, and essential EQT branding on the tongue.

Releasing exclusively at adidas Originals' flagship stores in Berlin, London, Milan, Mexico, Moscow, New York, Paris, Seoul, Shanghai, Tokyo - the result is a release that celebrates one of Europe's most important cultural centres, channeling the aesthetic of the city's rooftops to celebrate the culture being built on the ground.
