NMD_R2

adidas Originals presents two new iterations of the NMD_R2 silhouette for the summer, rendering the second generation NMD model in a duo of understated color palettes.

For its latest release, the NMD_R2 model utilizes a circular knit upper for stretch and breathability, featuring an engineered 'white noise' motif. This is then countered by a premium nubuck panel on the medial quarter and the NMD's signature leather heel patch and pull tag. Finishing touches include tonal laces and a suede sockliner, placed atop an essential NMD BOOST tooling with the NMD_R2's asymmetric EVA insert on the medial side.

Offered in two contrasting grey colorways with tonal details. the result is a straight-spoken take on one of adidas' most dynamic silhouettes.
