

## Information

### Climacool 02/17 W

adidas Originals steps forward with two new women's-exclusive takes of the ClimaCool 02/17 silhouette this month, presenting the contemporary ClimaCool model in a duo of essential colorways.

True to the legacy of the original silhouette, the ClimaCool 02/17 uses a ClimaCool mesh across the upper, with molded TPU supports on the heel and toe bumper and a perforated sock-fit liner for pure breathability. This is then placed atop a lightweight AdiPrene midsole, reinforcing the shoe's early-2000s aesthetic. Both shoes are then finished with essential branding in the form of welded 3-stripes and original ClimaCool branding on the tongue. Offered in Red Night and Core Black colorways, the release culminates as a striking women's take on a shoe that pushes ClimaCool even further into the future than ever before.
