ClimaCool 02/17

adidas Originals presents two more colorways of its new ClimaCool 02/17 silhouette this month, rendering the contemporary ClimaCool model in a duo of understated palettes.

True to the original ClimaCool blueprint, the shoe features a ClimaCool mesh upper, countered by a perforated Ortholite sockliner for optimum breathability. The silhouette features a three stripes-mark with welded TPU and a concealed lacing system that underscores the shoe's minimalist upper design. This is offset by the shoe's aggressive contrast white Adiprene tooling with translucent overlay panels. Finishing touches include the iconic ClimaCool bubble tongue logo and a rubber outsole, creating a modern expression of the original ClimaCool ethos; aggressive, uncompromised, modern footwear design.
