EQT Racing ADV & EQT Support 93/17

adidas Originals presents two EQT silhouettes in an essential color palette for FW17, with something for both men and women.

First up, for women, a new iteration of the EQT Racing ADV silhouette, assumes a stretch-knit textile construction with tailored embroidery on the toebox, accented by a number of classic EQT details such as a Racing 93-inspired lacing system and asymmetric tongue, placed atop an EVA midsole with signature integrated 3-stripes-mark. The shoe is then rendered in a clean aqua colorway with contrast black accents to create a perfect shoe for any situation.

The men's offer then presents a new edition of the futuristic EQT Support 93/17 model, utilising a knit textile upper with contrast mesh quarter panels and tailored embroidery details. The shoe's TPU support piece and heel cap are restored in full alongside the shoe's webbing tape 3-stripes lace system, placed atop a molded Boost midsole with integrated 3-stripes-mark. Presented in black with white contrast details atop a crisp white tooling, the result is a minimalist rendition of one of EQT's most groundbreaking contemporary designs.
