Superstar Bold

adidas Originals' Superstar Bold model makes a welcome return this month, with the platform-soled women's-exclusive silhouette stepping out in an understated color palette for FW17.

Faithful to the original Superstar blueprint, the Superstar Bold features a classic leather upper with serrated 3-stripes mark and a leather interior lining placed atop an extra-thick rubber cupsole, finished with the iconic Superstar shell toe. Final touches include a gold sockliner, as well as gold foil branding on the shoe's lateral side and tongue. Rendered in a minimalist grey colorway with subtle contrast details, it's a release that places one of the Superstar's most outspoken iterations in a calm, collected light.
