

## Information

### NMD C2 Suede

adidas Originals gives the NMD\_C2 silhouette a bold new material treatment this month, trading out the shoe's regular mesh and textile construction for an all-over nubuck leather construction.

Retaining the NMD\_C2's regular design language, the new release transforms the shoe into a premium statement shoe, with perforated details on the medial side and reflective underlays adding a touch of contrast to the shoe's minimal, tonal design. Finishing touches include a neoprene heel insert, signature NMD heel tab and reflective laces, placed atop the second-generation NMD Boost tooling with EVA plugs on the lateral side and embossed details on the medial, rounded off with a contrast rubber outsole. Available in tonal Future Harvest and Core Black colorways, the release culminates as an elevated approach to the NMD\_C2 in strictly classic color treatments.
