Tubular X 2.0 PK

This month, the hyper-futuristic Tubular X 2.0 silhouette gets a bold utilitarian treatment to create a fashion-forward shoe that's built for the elements.

Blending minimalist aesthetics with a fearless design perspective, the Tubular X 2.0 features a full Primeknit construction across the upper, supported by a suede heel panel, padded collar and a unique lacing system, placed atop a two-tone EVA midsole with distinctive Tubular ripples. The shoe's texture is accented by a vacuum TPU film coating across the upper, rendering the shoe fully water-resistant and ready for whatever the winter months have to offer.
