adidas Originals x Terrex: EQT Support 93/17 GTX

This season, adidas Originals places the EQT series in a whole new light, collaborating internally with the adidas Terrex line to create a rugged, weather-ready take on the EQT Support 93/17 GTX model.

One of the most fashion-forward models in the EQT series, the EQT Support 93/17 translates the blueprint of the 1993 EQT Support model into a bold, contemporary context. This latest iteration pushes the utilitarian aspects of EQT to its furthest extent, featuring a water-repellent mesh upper with fully-weatherproof Gore-Tex lining.

Familiar EQT Support elements such as an asymmetrical wraparound tongue, soft TPU heel support and EQT tooling with integrated 3-stripes return in full, while a structural panel on the medial side is decorated with the Terrex logo. Placed atop a stealth-rubber outsole with reflective laces and BOOST sole; the result is a striking, practical take on the most progressive aspects of adidas' iconic EQT series.
