

AT THE MEE IN DUBAI FPT INDUSTRIAL PRESENTS ITS OWN NEW KIT FOR ENGINE MAINTENANCE

Turin, February 2014

FPT Industrial, global leader in the development and production of powertrains for industrial applications, presents at the Middle East Electricity in Dubai its new maintenance kit for power generation engines.

Thanks to the introduction of these new kits, customers will be able to carry out different maintenance services on their own engines more easily and quickly. The kits are indeed ready-to-use and very simple to utilize. Customers no longer have to order various single components; they will instead find all the necessary parts within the kit, according to the type of maintenance and interval to be carried out. Under the cost point of view, the purchase of the whole kit also allows a saving if compared to the purchase of all the single components.

FPT Industrial engines are characterized by the longest maintenance intervals in their category (up to 800 hours), thus ensuring extremely low operating and management costs to customers.

Inside the kit, and according to the maintenance activity to be carried out, customers will find air, oil and fuel filters, belts, valve timing covers and blow-by. The kits for the F5, NEF and Cursor series engines, dedicated to power generation applications, are available at all the Middle East FPT Industrial dealers.

FPT Industrial, a worldwide supplier of power generation solutions, is present with its dealers in the following countries:

- Saudi Arabia (Aljomaih Holding Company – Jeddah; Aljomaih Equipment Co – Riyadh)
- United Arab Emirates (Aikah – Dubai; Electrogen Electric Generators Manufacturing – Dubai; Adpower – Jebel Ali Free Zone)
- Yemen (IAESCO – San'a)
- Jordan (Universal Equipment - Amman)
- Lebanon (Arison - Beirut)
- Afghanistan (Adpower - Kabul)
- Pakistan (Adamjee Diesel Engineering Pvt – Karachi)
- Iraq (Arison – Baghdad)
- Kuwait (Quality Light & Heavy Equipment – Hawalli)

***FPT Industrial** is a company of CNH Industrial dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs approximately 8,000 people worldwide, in ten plants and six R&D Centres. The FPT Industrial sales network consists of 100 dealers and over 1,300 service centres in almost 100 countries. A wide product offering, including five engine ranges from 31 kW up to 740 kW and transmissions with maximum torque from 200 Nm up to 500 Nm, and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains.
