

FPT INDUSTRIAL POWERS G20'S RIVER SECURITY IN CHINA

Hangzhou, July 27, 2016

FPT Industrial, world-leading manufacturer and supplier of innovative powertrain solutions, powers the latest addition to the Hangzhou Port Management Bureau's fleet of patrol boats. In preparation of the G20 Summit of Heads of state in Hangzhou, China, six new high speed coastguard boats have been launched to strengthen security on and around the Qiantang River.

The launch ceremony was held at the Haiyue Bridge Port Center at Qiantang River in the presence of Mr. Hu Bin, Hangzhou Transportation Bureau Deputy Director, Mr. Yang Tingli, Hangzhou Port Management Bureau Secretary and Mr. Michelangelo Amelia, Managing Director for FPT Industrial China.

These high-speed, fiber glass hulled, rigid inflatables have a length of 12.35 meters, a beam of 3.8 meters and a draught of 1.87 meters. Displacing 11.1 tons, these 40 footers are equipped with the record breaking Cursor 9, C90 550 and can reach speeds of up to 40 knots. The excellent fuel consumption allows for 500 mile autonomy, permitting for sustained patrol capability at speeds double the existing Hangzhou fleet.

The C90 550, an 8.7 liter, 6 cylinder engine, features a state of the art electronic engine management and second generation Common Rail injection system integrated under the engine cover for noise reduction.

Equipped with a water cooled fixed geometry turbo charger with waste gate flap and intercooler, the C90 550 reaches a maximum power of 550 HP (405 kW) at 2.530 rpm, with a torque of 2.150 Nm at 1.700 rpm.

Due to the important mission and high performance of these new additions to the Hangzhou fleet, FPT Industrial organized a special boat operation as well as training on engine performance for the new crews. This will allow for smooth operations during the G20, ensuring strengthened river security, but also increased water transport management capabilities in the Hangzhou area after the G20.

PRESS RELEASE

FPT Industrial is a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs approximately 8,200 people worldwide, in ten manufacturing plants and six R&D Centers. The FPT Industrial sales network consists of 100 dealers and over 900 service centers in almost 100 countries. A wide product offering, including six engine ranges from 31 kW up to 740 kW and transmissions with maximum torque of 200 Nm up to 500 Nm, and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains. The Group of Twenty or the G20, is the premier forum for international economic cooperation and an important mechanism for global economic governance. The Group is entrusted with the critical mission of addressing economic risks and challenges, promoting world economic growth, improving global economic governance and sharing development benefits amongst people across the world. It is committed to an open world economy with a strong partnership among members and beyond. In 2016, China will work together with other members to consolidate and strengthen the partnership within the G20, to fully implement the commitments at the Antalya and the previous summits, to improve the effectiveness of the G20 in decision-making and implementation, and to further extend its influence. Based on the latest developments of the global economy and the needs of individual economies, the G20 will not only address outstanding issues of the moment to mitigate short-term risks, but also develop forward-looking and creative policy ideas and take collective actions to steer the world economy into the future.
