

## CASE Offers New Thunder Creek FST Series Trailers through Nationwide Dealer Network

Racine, Wis., July 22, 2015

[CASE Construction Equipment](#) will now offer [Thunder Creek Equipment](#)'s new [FST Series Trailers](#) through its nationwide dealer network. The new trailers are a one-stop-shop for heavy equipment owners' fuel and diesel exhaust fluid (DEF) storage/handling needs, and offer a variety of options – including light towers and a 3-in-1 welder/generator/air compressor – that make it the ideal platform for field service and repair. With purpose-built DEF storage and pumping technology, FST Series Trailers provide contractors with an easy and efficient way to ensure optimal DEF purity.

The all-new FST trailers are available in 500-, 750- and 990-gallon diesel capacities with a 100-gallon DEF tank. Each trailer features Thunder Creek's exclusive closed-loop DEF Delivery System with patent-pending 2-in-1 DEF Pumping System to eliminate exposure to possible contaminants. The optional rear utility box is 55 percent larger than previous designs and can be added at any time, allowing the trailer to grow with the owner's needs. The trailers are built with a 25 percent stronger frame to handle the rigors of off-road travel, and are specially designed with taller, fully baffled fuel tanks for smooth hauling at highway speeds.

More information on the new FST Series Trailers can be found at [ThunderCreek.com](#). To find the nearest CASE dealer visit [www.CaseCE.com](#).

###
