

## **T7 Series – Tier 4B**

*T7 Series tractors offer unrivaled comfort, power, efficiency and precision. They let you take control of your operating costs by improving the efficiency of your operators, your field performance and your business. New Holland T7 tractors deliver big productivity and top-of-the-line comfort.*

### **9 Models, 3 Transmissions, Countless Awards**

You can specify your New Holland T7 tractor to match your specific business needs. With rated engine power ranging from 140 to 300 horsepower, and PTO horsepower ranging from 110 to 270 PTO horsepower, the nine-model T7 Series line-up offers a choice of semi-powershift, full-powershift or continuously variable transmissions (CVT), with the T7.270, T7.290 and T7.315 available only with the Auto Command™ CVT. You can add a New Holland loader to any T7 model, and also choose the optional fully integrated front three-point hitch and PTO.

### **Fully Integrated IntelliSteer™ Auto Guidance**

T7 Series tractors are designed to make full use of New Holland Precision Land Management (PLM™) technology, allowing you to dramatically improve operator performance and comfort—all at the touch of a button. You can specify your T7 Series tractor with a fully integrated New Holland- IntelliSteer™ auto guidance system. The system uses DGPS or RTK technology to help ensure parallel pass-to-pass accuracy as precise as sub inch.

### **Engine**

#### **Cleaner, More Productive Power**

T7 tractors boast New Holland's cutting-edge and award-winning ECOBlue™ HI-eSCR (High-Efficiency Selective Catalytic Reduction) engine technology, developed by New Holland's sister company FPT Industrial. These engines comply with the even-more-stringent Tier 4B emissions standards. These T7 engines continue to "breathe" better and maintain the performance advantages you've come to expect from the T7 Series line.

### **Horizon™ Cab**

#### **Exceptional Visibility and Driving Ease**

New best in class lighting packages, upgraded seat options, Comfort Ride™ cab suspension and innovative easy-to-use controls improve operator comfort and productivity.

When working long hours in the field, it is important for you to stay productive throughout the day. This is why the T7 Series provides the ultimate in comfort with three new distinct levels of seating technology.

- The Comfort Seat provides ease and relaxation with new cushion and suspension systems. A new sliding backrest design allows you to easily look rearward while providing additional upper back support.
- The Dynamic Comfort Seat increases your comfort with a two-stage heater and provides enhanced low frequency suspension, automatic weight setting and shock absorber adjustment.

## **Transmission**

### **Even More Versatility**

The nine-model T7 Series line-up provides a choice of engine power, hydraulic options and transmission choices for every application.

T7 Series tractors offer transmission choices for every application. Choose from the Auto Command™ (CVT), Power Command™ full powershift or the Range Command™ semi-powershift transmissions to make you work more efficiently.
