

FPT INDUSTRIAL UNVEILS TWO NEW BEST-IN-CLASS MEDIUM-RANGE ENGINES FOR POWER GENERATION AT MIDDLE EAST ELECTRICITY 2017

Turin, February 6, 2017

FPT Industrial will launch the global preview of its **two new best-in-class medium-range engines for Power Generation** at the 2017 edition of **Middle East Electricity** (Dubai World Trade Center - February 14-16 - Sh. Saeed halls, **Booth S3.E40**).

The most representative products from FPT Industrial's **full-range line-up for Power Generation** applications will be also showcased for the exhibition. For lower power requirements, FPT Industrial offers its **S8000** with an output of up to 34 kW. At the top end of its power range, FPT Industrial displays the **Cursor 16 G-Drive**, based on award-winning architecture, capable to provide up to 578 kW. Furthermore, the **GE N100**, a 100 kVA **Open Genset** will be also showcased at FPT Industrial's booth.

MORE POWER, LESS SPACE

FPT INDUSTRIAL PRESS MEETING

Media are invited to the exclusive global preview of FPT Industrial's new engines and latest Power Generation offering during a **press meeting** that will take place on Tuesday, February 14, 2017, from 4:00 p.m. to 5:00 p.m. on the brand's stand at Middle East Electricity (Dubai World Trade Center - Sh. Saeed halls, Booth S3.E40). Media professionals are also invited to attend the technical seminar "***New midrange engines: an introduction to reduce genset sizing and cost of ownership***" organized by FPT Industrial the same day from 3:00 p.m. to 4:00 p.m. in the Sheikh Saeed seminar room.

FPT Industrial is a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs approximately 8,400 people worldwide, in ten manufacturing plants and seven R&D Centres. The FPT Industrial sales network consists of 93 dealers and over 900 service centres in almost 100 countries. A wide product offering, including six engine ranges from 31 kW up to 740 kW, transmissions with maximum torque of 200 Nm up to 500 Nm, front and rear axles from 2 to 32 ton GAW (Gross Axle Weight) and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains.
