

FPT NORTH AMERICA APPOINTS MSHS EXCLUSIVE MARINE DISTRIBUTOR

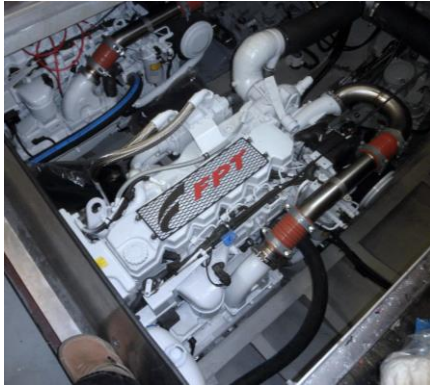

Burr Ridge, USA, June 19, 2017

FPT North America proudly announces an exclusive partnership with Marine distributor, **Motor-Services Hugo Stamp, Inc (MSHS)**. An FPT distributor partner since 2005, over time MSHS has consistently demonstrated outstanding product sale and service capabilities and thus awarded new territories and regional responsibilities.

FPT awarded MSHS significant North American territory, which includes all of the United States, Canada, and Mexico. As Master FPT Marine Propulsion Distributor for North America, customers will have direct access to FPT **products, factory-trained engineers, and customer support** from MSHS offices in Florida, Louisiana, Maine, and Seattle, as well as a coast-to-coast dealer network.

MSHS, founded in 1983 and headquartered in Fort Lauderdale, FL, specializes in Marine diesel engine products and services. “MSHS engineering excellence and commitment to customer service, makes for a dynamic partnership with FPT and a true extension of our core values”, states **Mike Cullen**, head of FPT North America. “We are excited about FPT’s growing Marine presence in North America and strong partnership with Motor-Services Hugo Stamp, Inc.”

Torsten Schmitt, Sales Manager for MSHS High Speed Engine Division, stated, "As the Master Marine Distributor for North America, MSHS is dedicated to delivering value that meets customer expectations. Together with FPT, MSHS will be the strategic resource for engine products, service, and technical support. Along with a **well-established dealer network**, MSHS' recent expansion into the Northwest uniquely positions us to deliver coast-to-coast with confidence."

MSHS offers a **complete range of FPT Marine inboard diesel engines**, which are defined by **best-in-class quality and top features**, providing the most demanding applications for marine pleasure craft and commercial segments. Outstanding customer service and product support are heralded by MSHS' loyal customers worldwide, along with rapid delivery of solutions and competitive pricing.

With **over 30 years of partnership with OEM's**, MSHS is also a strategic resource for turbocharger sales and service, filtration and separation, automation and electrical services, on-site machining, and slow, medium and high-speed engine repair and maintenance. MSHS factory-trained engineers perform scheduled maintenance, emergency service, on-site repairs, repowers and overhauls. MSHS maintains an extensive spare parts inventory available to customers 24/7. Strategic reinvestment in resources coupled with drive for modernization, has enabled MSHS to be competitively advantageous within the maritime industry.

Together with **FPT's innovative technology innovation**; MSHS will continue to empower customers with custom tailored product solutions.

FPT, a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. With over 100 years of experience in high-power engine development, we offer product excellence in engines ranging from 120 -810hp. Globally, we have 7 R&D centers and 1,000 engineers dedicated to development of industry-leading technology. Our focus on innovative technology and dedication to our customers, establishes FPT as a global leading powertrain producer.
