New Holland T4S - Setting new standards in comfort and versatility

- *All-new cab with best in class roominess & all round visibility*
- *Maximum versatility with best in class lift capacity, PTO options & tire offering*
- *Fuel Efficient & Powerful S8000 Stage IIIB engine*

Representing a revolution in comfort and versatility within the sub-80hp tractor sector, the all-new T4S tractor series from New Holland Agriculture delivers the perfect balance between affordability and performance.

Specifically designed to meet the demands of livestock and smaller mixed farm operations, the three-model range comprises nominal outputs of 55, 65 and 75hp.

“New Holland recognise there is a strong demand for tractors that offer mechanical simplicity matched with an enhanced standard specification for improved versatility,” states Sean Lennon, Head of Tractors. “The new T4S series are the result of many years of experience in this sub-80hp power sector. Matching the very latest cab technology and sound mechanical engineering is just a part of the T4S tractor package. Small farm and livestock users will find the T4S series delivers an unrivalled balance performance and versatility.”

All-new cab.

Purpose developed for the T4S, the new four-post cab offers exceptional roominess and all-round visibility. An opening roof panel offers additional sightline when working with a raised front-end loader.

A flat cab floor provides exceptional space for this tractor category, with easy access to facilitate climbing in and out of the tractor for yard work. Powerful heating and air conditioning complete a comfort package designed for fatigue free hours in any task.

Wide transmission choice.

As standard, T4S models are fitted with an 8 forward and 8 reverse speed transmission, with four synchromesh speeds split between high and low ranges. An optional 12x12 transmission offering is available throughout the entire range and is enhanced with the addition of the hydraulic shuttle. This steering column mounted lever can be operated without removing the hand from the steering wheel, enhancing safety and improving loader productivity.

PRESS RELEASE

An optional creeper allows speeds as low as 0.108km/h - ideal for specialist activities and precision applications such as seeding.

Increased Versatility.

Rear lift capacity of T4S offers class leading 3,000kg with two external assist rams. Up to three hydraulic remotes are available and offer standard flow of up to 48l/min. This ensures the required hydraulic performance even when carrying out the most demanding applications, including front loader and hay and forage applications.

Wide PTO options.

All T4S tractors are fitted with a two-speed 540/540E PTO. Engagement is via a servo assisted lever, in-built soft start modulating engagement to protect both the tractor and attachments. As an option, a ground speed PTO can also be specified.

Reduced cost of ownership.

Purpose developed for agricultural applications, the 2.9 litre three-cylinder S8000 Stage IIIB engine series delivers a combination of high power and torque (up to 32% of torque reserve) linked to excellent fuel consumption. Engines on all models feature turbo charging with an intercooler for exceptional efficiency and performance.

Compact Dimensions.

With a compact wheelbase of 2,130mm, and overall height of 2,520mm, the T4S tractor is a thoroughly modern but traditionally sized 'small' tractor. Dependent upon tyre and wheel equipment, operating widths across the rear of the tractor span 1,440mm to 1,950mm, making a T4S the ideal choice as an all-rounder for a wide range of tasks.

The T4S Series.

Model	Number of cylinders	Max Power hp	Max Torque Nm @ 1400 rpm
T4.55S	3	55	258
T4.66S	3	65	291
T4.75S	3	75	341

PRESS RELEASE

New Holland Agriculture's reputation is built on the success of our customers, cash crop producers, livestock farmers, contractors, vineyards, or groundscape professionals. They can count on the widest offering of innovative products and services: a full line of equipment, from tractors to harvesting, material handling equipment, complemented by tailored financial services from a specialist in agriculture. A highly professional global dealer network and New Holland's commitment to excellence guarantees the ultimate customer experience for every customer.
