New Holland T6.175 Dynamic Command™ Tractor Wins Machine of the Year 2018 Award in the Mid Class Tractor category at Agritechnica 2017

The New Holland T6.175 Dynamic Command™ tractor was crowned “Machine of the Year” 2018 in the Mid Class Tractor category by a jury panel of journalists representing leading European agricultural publications. The machine received the coveted award for its technical innovation and the benefits it brings to customers, with selection criteria focusing on innovative features, performance, productivity, cost of operation, ease of use and operator comfort.

Carlo Lambro, New Holland Agriculture Brand President, stated: “This award is testament to New Holland’s long-standing leadership of the mixed farming and dairy segment. It is a well deserved recognition of the hard work and dedication of all those involved in the development of the T6.175 Dynamic Command tractor, from our engineering teams to the whole Basildon plant team, developing a tractor meeting the specific requests made by our customers.”

New Holland Agriculture has enriched the T6 Series offering with the new T6 Dynamic Command™, an all round multi-purpose tractor. These new T6.145, T6.155, T6.165 and T6.175 are the only models in this segment featuring a new 8-step semi powershift transmission on the market. They are extraordinarily versatile tractors that will be an asset to the fleets of arable, livestock, dairy farmers, contractors and hay and forage operations.
