

## FPT INDUSTRIAL AND NEW HOLLAND AGRICULTURE PARTNER AT WORLD AG EXPO AND FARM MACHINERY SHOW

Turin, February 13, 2017

The **World Ag Expo** opens the season of trade shows in the United States. The event in Tulare, California, gathers more than 1,500 exhibitors from **February 13<sup>th</sup> to 15<sup>th</sup>** and FPT Industrial is present within the **New Holland Agriculture** exhibit, featuring engines that power Agriculture equipment.

FPT Industrial and New Holland, sister brands within CNH Industrial, **collaborate together** not only for this event but also for the Farm Machinery Show, from February 14<sup>th</sup> to 17<sup>th</sup>.

PRESS RELEASE

*FPT Industrial V20 engine*

*New Holland T6.175 Dynamic Command*

Visitors to the New Holland exhibit in Tulare can discover new features and applications, such as the **new forage harvester FR920**, powered by the **V20**, FPT Industrial's 20-liters top-of-the-range engine, which is also on display. The V20 engine can deliver a **maximum power of up to 910 hp @ 1,800 rpm and maximum torque of up to 4,100 Nm @ 1,500 rpm**, while maintaining low fuel consumption.

At the **Farm Machinery Show**, in Kentucky, visitors can find FPT Industrial engines powering New Holland **boom sprayers** and **tractors**. The FPT Industrial **NEF 67 engine** powers New Holland's front boom sprayer. This engine belongs to the renowned NEF series, whose reliability is proven by more than **1.3 million units produced since 2001**. The NEF 67 engine

is **EGR-free** and ensures low fuel consumption and top class performance. The NEF 67 is also enriched by the **Hi-eSCR technology**, FPT Industrial patented maintenance-free after-treatment solution.

As for the tractors, FPT Industrial equips New Holland's **T6.175 Dynamic Command** – which was also awarded 'Machine of the Year' in the mid-range category during Agritechnica - and **T5.120 Electro Command**, respectively with its **N45** and **F5** engines. Like the NEF 67, the N45 belongs to the **NEF Series** and promises up to **600 hours oil service intervals**. While, the **F5** is the perfect solution for **light applications**: it delivers high performance with low operating costs in a compact and flexible solution.

FPT Industrial provides to New Holland Agriculture an engine for every need, and at World Ag Expo and Farm Machinery Show visitors can discover them through FPT Industrial displays and, of course, inside New Holland equipment.

*FPT Industrial is a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs more than 8,000 people worldwide, in ten manufacturing plants and seven R&D Centres. The FPT Industrial sales network consists of 93 dealers and over 900 service centres in almost 100 countries. A wide product offering, including six engine ranges from 42 hp up to 1,006 hp, transmissions with maximum torque of 200 Nm up to 500 Nm, front and rear axles from 2 to 32 ton GAW (Gross Axle Weight) and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains.
