RACINE, Wisconsin (August 28, 2018)

A new level of cab comfort is now available in a smaller size with the release of Case IH Farmall® utility A series — models 55A, 65A and 75A. These new models help fill out the Case IH entry-level Farmall lineup with cab and non-cab options, delivering the strength and productivity needed for any job in any weather.

“Case IH is building on the Farmall legacy with a lineup that meets demands for chores around the farm,” said Denny Stroo, Case IH Farmall tractor marketing manager. “Farmall utility tractors are dependable workhorses suitable for a multitude of uses, proven by the fact that more than 2 million Farmall tractors have been sold around the world.”

*Caption: Whatever the task, producers can count on Farmall® tractors for reliable, fuel-efficient horsepower and multitasking flexibility.*

### ***Smart and rugged utility tractors***

Engineered with evenly distributed weight in all the right places — from heavy-duty powertrain components to the axle and transmission design to engine displacement.

The electronically controlled 2.9-L engines feature 3 cylinders and a tunnel block design that ensures ruggedness and easy maintenance. With Case IH FPT engines, Farmall utility A series tractors feature a simple, straightforward 8F x 8R easy-to-operate mechanical transmission. Also available is an optional 12F x 12R power shuttle, delivering simplicity and efficiency to loader work.

### ***Comfort and versatility unite***

With the expanded lineup of Farmall utility 55A, 65A and 75A tractors, producers can now choose between cab and non-cab models. The enhanced cab comfort means long days pass more quickly and are often more productive. Plus, producers can enjoy a spacious, climate-controlled cab with a mechanical contoured seat and tilt steering wheel that adjusts to create a personalized fit for each operator. An optional air ride feature elevates riding comfort.

Operation of the Farmall utility A tractors is further upgraded with new wrap-around lighting and movable dynamic fenders, improving turning radius for greater tractor maneuverability. Plus, telescopic stabilizers and optional flex-end lower links keep implements steady and provide ease of implement installation.

### ***A family of Farmall tractor options***

The release of the new Farmall utility A tractors builds on the full lineup of Case IH tractors. Whether rolling up round bales, keeping the yard manicured or powering a grain auger, Case IH Farmall tractors — ranging from 35 engine horsepower to 140 engine horsepower\* — give you a hardworking, reliable option that's right for your operation.
