

IVECO and Maxicargo exhibit a Daily Blue Power NP bodied with a tipper trailer with record payload in 3.5 ton segment

Hanover, 19 September 2018

IVECO and Maxicargo are exhibiting a Daily Blue Power NP tipper trailer that offers payload without equal among 3,5 ton commercial vehicles on IVECO's Diesel-free/Low Emissions Area stand at the 2018 edition of the IAA Commercial Vehicles (IAA) exhibition. The Daily Blue Power NP equipped with the Maxicargo trailer is destined to the fleet of Ville de Paris.

The Daily Blue Power features the 3.0-litre F1C engine of industrial derivation providing 136 hp and 350 Nm of torque. This extremely quiet urban vehicle delivers the robustness, performance and reliability that the Daily is known for, together with superior comfort and fuel economy, best-in-class driveability and all the environmental benefits of natural gas technology.

The Daily Blue Power features a Maxicargo tipper trailer equipped by Fassi with a 3 ton meter crane. The design, with both natural gas tanks and crane mounted on the vehicle and the tipper fitted on the trailer, maximises the vehicle's payload of up to 2,300 kg – exceptional for a 3.5 ton commercial vehicle. The towing hook positioned in the centre of the chassis results in a very short trailer assembly. Safety features include the anti-sway device of the trailer, which ensures excellent stability on the road and the powerful automatic overrun brake system.

Maxicargo has earned a reputation for its innovative trailer that enables its customers to comply with payload regulatory requirements and the high quality of its products. It has registered 10 European patents on the Maxicargo product.

PRESS RELEASE

IVECO

IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons, the Trakker (dedicated to off-road missions) and the Stralis, both over 16 tons. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
