

CASE India adds CASE1110 EX to its existing fleet of Compactors

Gurgaon, December 11, 2018

CASE Construction Equipment, a brand of CNH Industrial, unveiled its latest product CASE 1110 EX Soil Compactor today at the 5th Indian edition of the International Trade Fair, Bauma Conexpo. This will be available for the Indian market from 2019 onwards

The CASE 1110 EX is specially designed with operator comfort in mind. With its closed HVAC cabin and a more powerful engine, the compactor is highly suitable for heavier application usage. It is a product that will cater to activities as diverse as urban construction, road building, infrastructure, and mining.

CASE India manufactures its industry-leading compactors and backhoe loaders at its World Class Manufacturing (WCM) awarded Pithampur plant in Madhya Pradesh. In addition to meeting domestic needs, this facility also exports to markets in the Asia Pacific region, Africa and the Middle East.

Commenting on the launch, **Mr. Ajay Aneja, Brand Leader, CASE Construction Equipment India** said, *“CASE India is the market leader in the compactor segment and the only company to have rolled out more than 12,000 compactors from the Indian manufacturing plant. With the launch of CASE 1110 EX Soil Compactor, we aim to strengthen our roots in the Compaction range. CASE India has always endeavored to innovate and upgrade its machines from time to time and our new machine is another step in this direction as an Industry first product offering.”*

Product details of CASE 1110 EX Soil Compactor

The CASE 1110 EX soil compactor comes with a new-generation FPT Industrial S8000 engine that delivers up to 110 HP at 2300 rpm and torque of 430 Nm at 1400 rpm. More than 2 million S8000 engines across the world are testament to the reliability of this proven power. The soil compactor also features a turbocharged after cooled engine with an internal Exhaust Gas Recirculation system for ensuring best-in-class fuel economy. The maximum applied force of the soil compactor is in the range of 34 tonnes, which is regarded as the best in industry. Moving a step ahead of the curve, the machine has been launched with a ROPS/FOPS HVAC cabin, which keeps operator comfort and safety in mind. Additionally, the optimised HVAC Cabin gives an excellent front and rear drum/nozzle visibility, making the drive and compaction process easier and safer.

CASE Construction Equipment sells and supports a full line of construction equipment around the world, including the No. 1 loader/backhoes, excavators, motor graders, wheel loaders, vibratory compaction rollers, crawler dozers, skid steers, compact track loaders and rough-terrain forklifts. Through CASE dealers, customers have access to a true professional partner with world-class equipment and aftermarket support, industry-leading warranties and flexible financing.
