

IVECO officially delivers 30 Stralis NP trucks to Jost Group, which is targeting 35% conversion of its fleet to LNG by 2020, making a step forward in its Green Positioning

Jost Group chooses IVECO's Stralis NP, which was crowned Low Carbon Truck of the Year in the UK and Sustainable Truck of the Year 2019 in Italy, for the conversion of its fleet to deliver Green Logistics.

Herstal (Belgium), 15th January 2019

IVECO handed over 30 brand new Stralis NP trucks at an official ceremony held at Jost Group's premises in Herstal, Belgium on 7th January. The pan-European transport and logistics specialist aims to convert 35% of its fleet to Liquefied Natural Gas (LNG) by 2020. The new trucks will replace 4-year old diesel vehicles in the company's fleet of 1,400 trucks, which includes 132 Stralis of which 2 running on Compressed Natural Gas (CNG).

At the ceremony **John Venstra, Business Director IVECO Benelux**, stated: *"Jost Group has set itself clear sustainability goals, and their choice of the Stralis NP shows their belief in natural gas as the viable solution to deliver green transport. We are very pleased that they have placed their trust on IVECO for the conversion of their fleet, recognising our advanced expertise with this technology and our dealer network's experience in supporting natural gas powered vehicles. With lower gas fuel consumption, their new Stralis NP trucks will save a significant percentage on running costs, according to the calculations of the Michelin MyBestRoute application – enough to repay their investment in clean truck technology and owned refuelling stations while protecting the planet and our health!"*

The Stralis NP trucks will enable Jost Group to deliver green transport services with an impressive 99% reduction in particulate matter and 90% in NO₂ emissions compared to Euro VI standards, and when running on biomethane 95% less CO₂.

In addition to their environmental benefits, the new Stralis NP trucks will also deliver significant savings. The 460 hp single-fuel version with double LNG tanks feature IVECO's best on-road fuel efficiency technologies and services, achieving up to 15% less fuel consumption and up to 9% lower Total Cost of Ownership than a diesel truck.

IVECO

IVECO is a brand of CNH Industrial N.V., a World leader in Capital Goods listed on the New York Stock Exchange (NYSE: CNHI) and on the Mercato Telematico Azionario of the Borsa Italiana (MI: CNHI). IVECO designs, manufactures and markets a wide range of light, medium and heavy commercial vehicles, off-road trucks, and vehicles for applications such as off-road missions.

The brand's wide range of products include the Daily, a vehicle that covers the 3.3 – 7.2 ton vehicle weight segment, the Eurocargo from 6 – 19 tons, the Trakker (dedicated to off-road missions) and the Stralis, both over 16 tons. In addition, the IVECO Astra brand builds off-road trucks, rigid and articulated dumpers as well as special vehicles.

IVECO employs close to 21,000 individuals globally. It manages production sites in 7 countries throughout Europe, Asia, Africa, Oceania and Latin America where it produces vehicles featuring the latest advanced technologies. 4,200 sales and service outlets in over 160 countries guarantee technical support wherever an IVECO vehicle is at work.
