

FPT INDUSTRIAL POWERS 'SUSTAINABLE BUS OF THE YEAR 2020'

Turin, October 28, 2019

FPT Industrial powers the 'Sustainable Bus of the Year 2020' in the intercity category, the **IVECO BUS Crossway Natural Power**. The winning coach is fitted with the latest generation of FPT's Cursor 9 Natural Gas.

This 6-cylinder engine ensures the Crossway NP a maximum power of 360 hp at 2,000 rpm and torque of 1,640 Nm at 1,100 rpm. The engine design not only provides reliability and a longer product lifecycle, but also the same accessibility, passenger capacity and luggage space as the Diesel version.

PRESS RELEASE

FPT Industrial Cursor 9 Natural Gas

Natural Gas (NG) is currently the most viable and low-cost sustainable solution, with FPT Industrial leading this segment with some 50,000 engines sold worldwide. The Brand's NG engines significantly reduce **CO₂ emissions** whether with the compressed or the liquefied form of Natural Gas. They can also run on **biomethane**, bringing emissions down to almost zero.

Cursor 9 NG uses stoichiometric combustion and multipoint sequential injection, ensuring best-in-class fuel consumption. To comply with emissions standards **Euro VI**, this model relies on a simple three-way catalyst, without Exhaust Gas Recirculation (EGR).

The Sustainable Bus Award evaluates a series of sustainability principals, such as comfort, noise levels, safety, and the general sustainability commitment of the manufacturer. The jury is composed of representatives from leading European bus trade magazines.

IVECO BUS Crossway Natural Power

Cursor 9 Natural Gas Specifications for IVECO Bus Crossway NP

Architecture:	6 cylinders in-line
Air Handling:	Turbocharged Aftercooler
Bore x Stroke (mm):	117 x 135
Displacement (l):	8.7 liters
Valves per cylinder (number):	4
Injection System:	Multipoint Injection
Turbocharging:	Wastegate
Max Power:	360 hp @ 2,000 rpm
Max Torque:	1,640 Nm @ 1,100 rpm
Exhaust system:	3-way catalyst

FPT Industrial is a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs more than 8,000 people worldwide, in ten manufacturing plants and seven R&D Centres. The FPT Industrial sales network consists of 73 dealers and over 800 service centres in almost 100 countries. A wide product offering, including six engine ranges from 42 hp up to 1,006 hp, transmissions with maximum torque of 200 Nm up to 500 Nm, front and rear axles from 2 to 32 ton GAW (Gross Axle Weight). FPT Industrial offers the most complete Natural Gas engines line-up on the market for industrial applications, including engine ranges from 136 hp up to 460 hp. This extensive offer and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains. For further information, visit www.fptindustrial.com.
