

Medico Industries Supports Team Rubicon in Flood Mitigation Project in Susquehanna County, Pennsylvania

Racine, Wis., November 4, 2019 – [CASE Construction Equipment](#) dealer [Medico Industries](#) supported veteran-led disaster response organization Team Rubicon with equipment, including a compact track loader and mini excavator, to perform flood mitigation work along a series of properties in Susquehanna County, Pennsylvania.

The initial damage occurred during severe storms that moved through the area in August of 2018. Team Rubicon performed a response operation at the time to help support flood damaged areas, and recently returned with its heavy equipment team to perform work that included stream bank restoration, debris removal from properties, structure demolition and other cleanup as needed.

“Team Rubicon is a great organization, leveraging the skills and training of veterans to make a real difference in our community,” says Philip Medico, general manager, Medico Industries. “They have contributed significantly in the cleanup in Susquehanna County, and we’re proud to provide them the iron to do it.”
