Case IH Enters New Partnership with Cowdray Park Polo Club

New four-year partnership between Case IH and Cowdray Park Polo Club / Fleet of Vestrum 120 tractors to maintain world-class polo grounds / Case IH precision technology and dealer network support to enhance ground management

Basildon, October 30, 2026

Case IH has entered a new partnership with Cowdray Park Polo Club, supported by the Case IH dealer network, to help maintain some of the finest polo grounds in Europe.

As part of the four-year agreement, Case IH will supply a fleet of Vestrum 120 series tractors equipped with CVXDrive continuously variable transmissions to Cowdray Park Polo Club. Combining power, versatility and operator comfort, the Vestrum series is designed to meet the demanding requirements of modern grounds management and deliver consistent performance across the club's extensive estate.

At the heart of every great polo match is a world-class playing surface. Maintaining Cowdray Park's renowned pitches requires precision, dedication and reliable equipment. The addition of the Case IH Vestrum tractors will strengthen the grounds team's ability to keep the club's fields performing to the highest standard throughout the season.

The partnership brings together Case IH global expertise in agricultural equipment, innovation and reliability with the knowledge and responsive support of the Case IH dealer network. Together, they share a commitment to quality, service and performance that aligns closely with Cowdray Park Polo Club’s pursuit of excellence both on and off the field.

From pitch preparation and maintenance to wider club operations, the tractors will become an integral part of Cowdray Park's daily activities, helping to ensure that players from around the world continue to compete on surfaces recognised among the very best in the sport.

"We are proud to partner with Cowdray Park Polo Club, a venue recognised for its outstanding standards and rich heritage within the sport,” said Neil Macer, CNH marketing manager, UK & ROI. “This agreement is an important opportunity for Case IH to demonstrate how advanced tractor technology, including the CVXDrive transmission and RTK guidance, can support the precision, reliability and performance required in elite grounds management.”

PRESS RELEASE

"With the support of the Case IH dealer network, we are pleased to provide Anthony and his team with a fleet of Case IH Vestrum tractors that will help maintain Cowdray Park's exceptional playing surfaces and support the continued success of this iconic club."

"We are looking forward to welcoming Case IH tractors to our fleet and working closely with the Case IH dealer network," said Anthony Lewis, head groundsman at Cowdray Park Polo Club. "This marks an exciting step forward for both me and my team as we continue to invest in the latest technology and equipment available to the industry.

"The Vestrum tractors will play an important role in helping us maintain the exceptional standards Cowdray Park is known for. By embracing new technology and innovation, we can continue to raise the bar in turf management and provide the very best playing surfaces for our members, players and international tournaments."

The partnership reinforces Case IH's commitment to supporting specialist ground care and agricultural operations with equipment that delivers performance, efficiency and reliability in all working environments.

Case IH is a global leader in agricultural equipment and solutions, with over 180 years of heritage and a commitment to delivering purposeful innovations that make all operations more productive, efficient and profitable. With a presence in more than 170 countries, Case IH supports professional producers through a dedicated network of experienced dealers and distributors. Case IH offers advanced equipment, integrated precision technology and dependable support— all designed to help customers maximize productivity and performance. In Europe, Case IH offers a complete portfolio to optimize operations including tractors, harvesting, application and hay equipment.
