Fidelity® Mutual Funds Win 19 Refinitiv Lipper Fund Awards

3/11/2021

13 Fidelity Mutual Funds Recognized for Strong Long-Term, Risk-Adjusted Returns

BOSTON--(BUSINESS WIRE)-- Fidelity Investments®, one of the industry's largest and most diversified financial services firms with more than \$9.9 trillion in client assets, today announced that 13 actively managed Fidelity mutual funds won a total of 19 Refinitiv Lipper Fund Awards.

The honors are given to individual mutual funds that have outperformed peers based on risk-adjusted, consistent returns over three-, five-, and 10-years relative to their peers. Refinitiv Lipper designates award-winning funds in most individual classifications for the three-, five-, and 10-year periods.

"During times of uncertainty, supporting our clients' financial well-being becomes more crucial than ever," said Bart Grenier, head of Asset Management at Fidelity Investments. "Despite the challenges brought on by a health and economic crisis, our team remained focused on our mission to deliver strong, long-term performance for Fidelity's fund shareholders. I am pleased that their hard work, dedication, and benchmark-beating results are getting noticed."

The 13 Fidelity mutual funds recognized by Refinitiv Lipper range across a variety of asset classes and styles from equities, fixed income and asset allocation to international, high income and sector funds.

Before investing, consider the fund's investment objectives, risks, charges and expenses. Please visit www.fidelity.com or institutional.fidelity.com for a prospectus or if available, a summary prospectus, containing this information.

Past performance is no guarantee of future results.

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible.

Stock markets are volatile and can fluctuate significantly in response to company, industry, political, real estate, regulatory, market, or economic developments. Investing in stock involves risks, including the loss of principal.

Foreign markets can be more volatile than U.S. markets due to increased risks of adverse issuer, political, market or economic developments, all of which are magnified in emerging markets. These risks are particularly significant for funds that focus on a single country or region.

Because of their narrow focus, sector funds tend to be more volatile than funds that diversify across many sectors

and companies.

Shareholders may be subject to certain short-term trading fees. Please consult the prospectus for further information.

Class I shares are sold to eligible investors without a sales charge or 12b-1 fee.

The Refinitiv Lipper Fund Awards, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers.

The Refinitiv Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is a risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification wins the Refinitiv Lipper Fund Award. For more information, see lipperfundawards.com. Although Refinitiv Lipper makes reasonable efforts to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Refinitiv Lipper.

About Lipper Rating System

Consistent Return

A Lipper Leader for Consistent Return is a fund that has provided superior consistency and risk-adjusted returns when compared to a group of similar funds. Lipper Leaders for Consistent Return may be the best fit for investors who value a fund's year-to-year consistency relative to other funds in a particular peer group.

Investors are cautioned that some peer groups are inherently more volatile than others, and even Lipper Leaders for Consistent Return in the most volatile groups may not be well suited to shorter-term goals or less risk-tolerant investors.

How Lipper Leaders are Rated for Consistent Return

Lipper Leader ratings for Consistent Return reflect funds' historic returns, adjusted for volatility, relative to peers. Ratings for Consistent Return are computed for all Lipper classifications with five or more distinct portfolios and span both equity and fixed-income funds (e.g., large-cap core, general U.S. Treasury, etc.)

The ratings are subject to change every month and are calculated for the following time periods: 3-year, 5-year, 10-year, and overall. The overall calculation is based on an equal-weighted average of percentile ranks for the Consistent Return metrics over 3-year, 5-year, and 10-year periods (if applicable). The highest 20% of funds in each classification are named Lipper Leaders for Consistent Return. The next 20% receive a rating of 4; the middle 20%

are rated 3; the next 20% are rated 2, and the lowest 20% are rated 1.
