Goodyear's All Season tires: 30 years of innovation and performance

A growing all-season market

Over 30 years ago, Goodyear changed the perception of consumers and offered them the choice to keep the same set of tires all year round. In 1977, Goodyear invented the All Season tire with the 'Tiempo' tire, THE FIRST ALL SEASON-TIRE. In 1985, they introduced the 'Vector'. It made Goodyear a real game changer.

During the last 3 decades, **Goodyear** has consistently developed and innovated this product to answer growing consumer needs. Creating a family line of all-season tires, continuing with the Vector 2, 3, 4, 5 until changing the name to **Vector 4Seasons**, has allowed Goodyear to remain a market leader in this segment. Goodyear's relentless search for innovation is illustrated today by the Vector 4Seasons Generation-2.

Soon, other tire brands followed suit and developed All Season tires. In fact, **Goodyear** was at the forefront of a booming All Season market. The European All Season market has been growing as we have seen a number of "greener" winters in the past few years in Europe and many consumers do not expect winters to be as harsh as several years ago when snow blanketed Europe. Compared to 2012, the All Season market has grown with 104%¹, growing steadily each year. The increased demand for comfort around tire changes, including fewer tire changes throughout the year and overall cost savings, **makes All Season tires an appealing product**, particularly for the driver of the second car in the family that covers a lower mileage annually.

Looking at consumer perceptions of the weather, 78%² agrees that the seasons are more and more unpredictable and 82%² wants tires that are safer in different weather conditions. These beliefs and the uncertainty they create can be a major driver for the uptake of **All Season tires**.

As awareness of All Season tires is growing in Europe³, **Goodyear** believes in the strength of the All Season market since the company introduced the first All Season tire 30 years ago and will continue to invest into this market segment with a **full portfolio of All Season products** (Premium, Mid and Budget).

Winter Regulation

In Europe, All Season tires can be used in either summer or winter conditions. In order to comply with European winter regulations, the Vector 4Seasons Gen-2, together with all Goodyear's All Season tires' performance, is verified with the three peak snow flake marking. This means the tire is suitable for mild and snowy winter conditions. In some countries, winter tires are not compulsory but using tires suitable for winter conditions is highly advised.

Fun Facts

-20 to +30 degrees testing

3 winter test sites location across Europe (Finland, Switzerland), New Zealand and USA.

Over 1 million km driven on prototype tires tested – either on road or lab machine.

Multiple (>3) tire sizes evaluated on various vehicle types during development.

GOOD YEAR MADE TO FEEL GOOD.

M+S

The Vector 4 Seasons Gen-2 Tire

The Vector 4Seasons Gen-2 tire offers a great performance in all seasons and all weather conditions, including dry, wet, slushy, as well as snowy and icy roads. It is a balanced tire with excellent performance in all circumstances. All Season tires are adapted to regions that have a soft winter, with less regular sub-zero temperatures but still conditions such as light snow and ice.

The Vector 4Seasons Gen-2 also offers reliability during the different seasons saving time, money and hassle:

During Spring and Autumn, tires need to provide grip on rainy and wet surface. In these circumstances, the independent $T\ddot{U}V^4$ test results have demonstrated that the Vector 4Seasons Gen-2 showed 9%⁴ shorter breaking distance on wet.

In Autumn, a tire needs extra resilience to slippery surfaces due to leaves sticking on the road. And during **Winter**, ice and snow can cause slippery surfaces. The independent TÜV⁴ test results have shown that the tire is also a leader in snow and ice braking compared to the average of all tested competitors In the TÜV test, the Vector 4Seasons Gen-2 proved to have an 8%⁴ shorter braking distance on snowy roads compared to the average of its 4 leading competitors.

According to consumers⁵ the weather is becoming more unpredictable (78% agree) and more extreme (68% agree). That's why all-season tires are seen by the majority of consumers as a better 'all rounder' compared to regular / **Summer** tires due to their versatility.

Demonstrated by the independent TÜV test, magazine tests, premium OE manufacturers, the Vector 4Seasons is an all-rounder offering peace of mind.

⁴ Compared to average of four competitors (Michelin CrossClimate+, Continental AllSeasonContact, Pirelli Cinturato All Season and Vredestein Quatrac 5). Measured by TÜV SÜD Product Service in August 2017 ordered by Goodyear; Size: 205/55R16; Test Car: VW Golf VII; Location: Cardrona (NZ), Colmar-Berg (L), Montpellier (F), Wittlich (D) Papenburg (D) Uni Neubiberg (D) TÜV SÜD Garching (D); Report nr: 713112421-02

TOP PERFORMANCE

The Goodyear Vector 4Seasons is being recognized as a top performer in auto magazine tests.

Additionally, the Vector 4Seasons Gen-2 was the winner in *Autobild allrad*'s 2017 test⁶ and was commended by the German magazine as 'nearly as good as a winter tire on snow', furthermore the magazine applauded the tire's very short braking distance in wet'. In 2016, the tire was also a test winner in Auto Motor und Sport's All Season test⁷. Last year, Gute Fahrt praised the tire as '**unbeatable**'⁸.

⁶ Auto Bild allrad (de) Issue 8, 2017 - AllSeason 2017 - 225/50R17 - Falken Euroall Season, Goodyear Vector 4Seasons Gen-2, Michelin Crossclimate, Nokian Weatherproof, Pirelli Cinturato All Season, Syron 365 Days All Weather, Uniroyal Allseason Expert, Vredestein Quatrac 5. Shared first place for the Goodyear & Michelin tire.

⁷ Auto Motor und Sport (de) Issue 20, September 15, 2016

⁸ Gute Fahrt Test 205/55 R 16, Comparative test ran on all-season tires with an Audi A3 TDI-Limousine. Published in March 2016, Issue 3, 2016. www.gute-fahrt.de. Comparative test of Goodyear Vector 4Seasons Gen-2 (94V) against Conti EcoContact 5 (91V), Dunlop Winter Sport 5 (91H), Michelin CrossClimate (94V), Nokian Weatherproof (91H), Pirelli Cinturato All-Season (91V) and Uniroyal All-Season Expert (91H).

TOP BENEFITS

2.

Excellent year-round performance.

The unique SmartTRED design features specific tread zones that adjust to road conditions.

Traction for every road condition.

Featuring high-density 3D waffle blades, the Vector 4Seasons offers excellent ice and snow traction. The tire is certified with the snowflake symbol, which means it meets the official standards of dedicated winter tires.

Received Autobild's Ecomeister title in 2015.

3. The Vector 4Seasons delivered a great performance thanks to its outstanding rolling resistance and treadwear.

GOOD YEAR

- Feature: Improved arrangement of smaller and connected blocks
- Benefit: Provides improved overall performance on snowy roads because more smaller blocks means more block edges which are "biting" the snow and improve snow grip.

Feature: 3D sipes

Benefit: Improved tread stiffness and enhanced stability and handling on dry roads. The 3D sipes are limiting the movement of the tread blocks under high deformation (like stability manoeuvers such as a lane change, maneuver or road curves), because they are blocking themselves making the tire more rigid during higher deformation.

- Feature: Wide cavity
- Benefit: Provides improved overall performance on icy roads as the wide cavity offers a wider contact area which is good on icy surface.

Vector 4Seasons Gen-2 Tire*

- Feature: Hydrodynamic grooves: V-shape
- Benefit: Provide better aquaplaning resistance on wet and slushy roads as the V shape of the design and the evolution of groove shape from the center part of the tread to the shoulder helps the evacuation of water outside of the footprint area.

- Feature: Increased silica proportion SmartTred plasticizer and Latest polymer technology offer a unique combination of compound ingredients
- Benefit: Provides better overall performance on wet, slushy and icy roads by stabilizing the compound's reaction to different temperatures and surface conditions.

Original Equipment Fitments

The tire is already endorsed by leading OE fitments including Audi A1, Ford Focus, Ford Fiesta, Ford C-Max and Ford S-Max, Seat Leon, Volkswagen Golf, Opel Adam, Opel Corsa, Opel Astra and Renault Megane amongst others.

Tire Fitments

Since its introduction, the Goodyear Vector 4Seasons Gen-2 has secured over 54 approvals on 27 platforms from 10 car manufacturers.

The Vector 4 Seasons Gen-2 SUV

5.5.1.1.5.7

Growing between 35% and 40% in the past years, **the SUV** and 4x4 tire segment is the market's rising star⁹. The desire for a feeling of safety is a key preference steering this growing consumer group. The rise of All Season tires also relates to this growing consideration of safety, which is why Goodyear decided to leverage its all-year-round tire expertise in service of SUV drivers, with their extension of the successful Vector 4Seasons line.

SUV drivers often feel safer in their bigger vehicle, particularly when equipped with four-wheel drive, therefore not always considering the need for safer tires. However, it is even more important for SUV's to be equipped with **appropriate tires in all conditions**. These vehicles are heavier and their center of gravity is higher than that of passenger cars. As a consequence, forces exerted on the tire are stronger, making braking and handling more challenging. A paradox that **Goodyear** has solved by offering **All Season tires for SUV vehicles**.

This year, **Goodyear** launched the Vector 4Seasons Gen-2 SUV tire, which includes the same characteristics as the passenger car tire.

⁹ ETRMA. Growth between 2010 and 2015 in Europe (incl. Turkey).

Original Equipment Fitments

Tire Fitments

Goodyear's Vector 4Seasons Gen-2 SUV is currently available at retail outlets, with a a line-up of 15 different sizes.
