

Benefits of using Goodyear FUELMAX PERFORMANCE tyres.

SAVE...

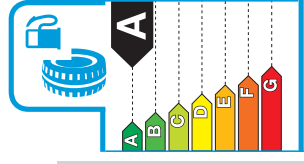

All figures based on a long-haul fleet with 100 vehicles

Up to **214,000** litres of diesel

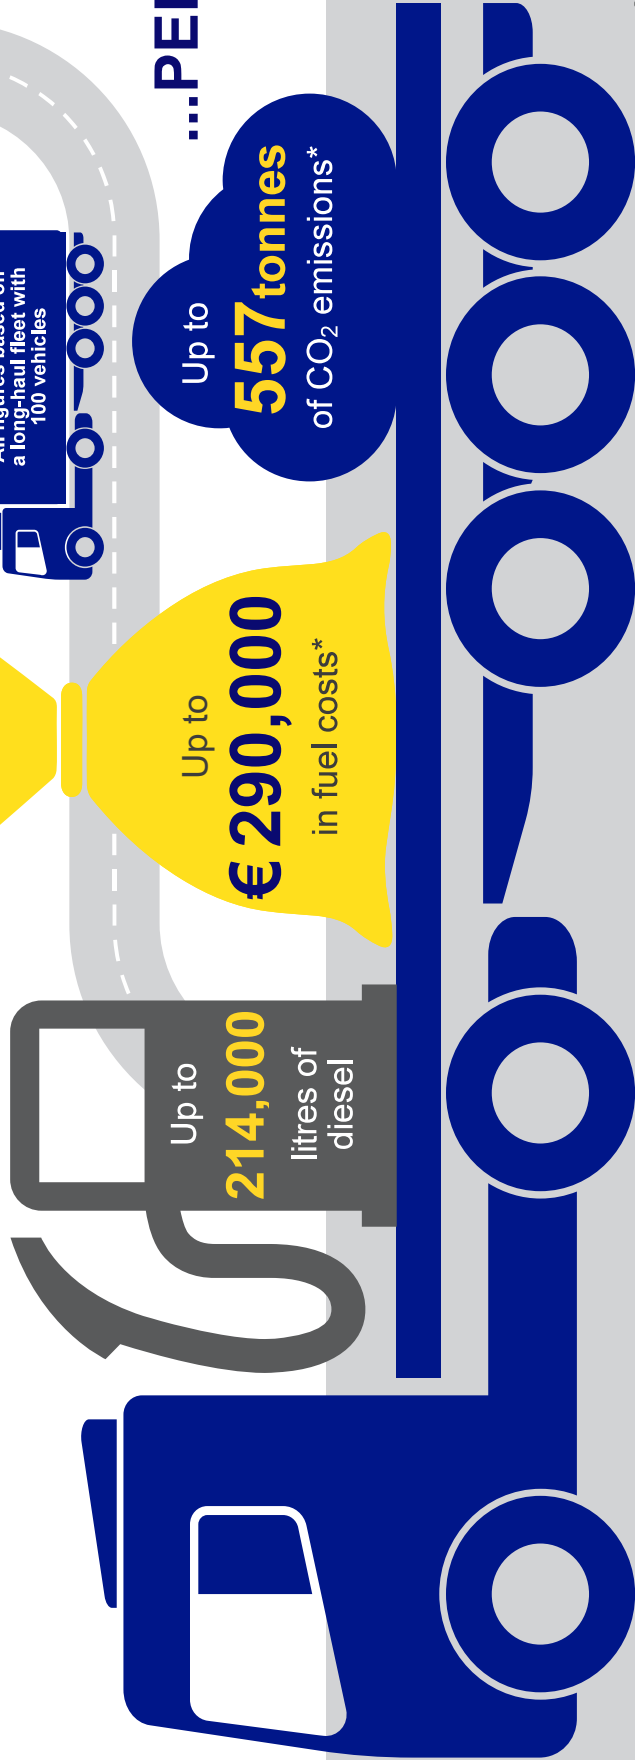

Up to **€290,000** in fuel costs*

Up to **557 tonnes** of CO₂ emissions*

...PER YEAR

EU Tyre Label Grade A for Fuel Efficiency on all axles, compared to B labelled tyres*

Goodyear FUELMAX S PERFORMANCE

Goodyear FUELMAX D PERFORMANCE

Goodyear FUELMAX T

Internal estimate based on a 40-tonne 4x2 tractor with tri-axle trailer (with Goodyear FUELMAX T trailer tyres) operating in long haul service; with an average fuel consumption of 30l/100 km; based on a diesel price of €1.36 per litre including VAT; with an annual mileage of 100,000 km, compared to the same type of vehicle fitted on all axles with mid-range B labelled tyres. Actual results may vary based on - but not restricted to - road and weather conditions; driving style, wear conditions, tyre size, tyre pressures and vehicle maintenance.
