

FPT INDUSTRIAL AT “WORLD ENERGY COUNCIL” MEETING TO CONFIRM ITS ROLE IN ENERGY SUSTAINABLE TRANSITION

Turin, May 26, 2017

FPT Industrial was a key participant at the “**World Energy Council (WEC)**,” which met between 18-20 May in Villa Fabri, Trevi, Italy. The WEC forum brought together institutions and journalists to share their vision of energy change. With the development and production of FPT Industrial's Natural Gas engines, **CNH Industrial** group is leading the conversation in this regard.

PRESS RELEASE

Villa Fabri at Trevi and the FPT Industrial Cursor 9 NG

Representatives from the main Italian institutions, universities, public and research organizations, as well as numerous leading companies operating in the field of renewable energy were represented at this conference titled “**Energy between facts, communication and communities; towards a shared national energy strategy**”. **FPT Industrial** has always been convinced of the fundamental role of the media in explaining the energy transformation we are experiencing. The Company shared its experiences and knowledge.

“The demand for greater environmental sustainability couples with the upcoming reforms that are expected to further reduce limits on NOx and CO₂ in the years to come,” said **Annalisa Stupenengo**, FPT Industrial Brand President, “Today we offer a full range of Natural Gas engines, from 3 to 9 liter: the most recent is the Cursor 9 NG and it is the most powerful in its category. Behind our new-generation NG engines there is our pioneering know-how, with more than 20 years experience in stoichiometric technology. This robust expertise makes us believe that the Natural Gas solution is ready for the challenges of today and tomorrow.”

***FPT Industrial** is a brand of CNH Industrial, dedicated to the design, production and sale of powertrains for on and off-road vehicles, marine and power generation applications. The company employs more than 8,000 people worldwide, in ten manufacturing plants and seven R&D Centres. The FPT Industrial sales network consists of 93 dealers and over*

900 service centres in almost 100 countries. A wide product offering, including six engine ranges from 42 hp up to 1,006 hp, transmissions with maximum torque of 200 Nm up to 500 Nm, front and rear axles from 2 to 32 ton GAW (Gross Axle Weight) and a close focus on R&D activities make FPT Industrial a world leader in industrial powertrains.
